The Art of Flamenco D. E. Pohren, 2005 Of contents The philosophy of flamenco The art of flamenco Encyclopedia of flamenco Appendices *Celebrating Flamenco's Tangled Roots* K. Meira Goldberg, Antoni Pizà, 2022-01-18 This collection of essays poses a series of questions revolving around nonsense cacophony queerness race and the dancing body How can flamenco as a diasporic complex of performance and communities of practice frictionally and critically bound to the complexities of Spanish history illuminate theories of race and identity in performance How can we posit and argue for genealogical relationships within and between genres across the vast expanses of the African and Roma diaspora Neither are the essays presented here limited to flamenco nor consequently are the responses to these questions reduced to this topic What all the contributions here do share is the wish to come together across disciplines and subject areas within the academy and without in the whirling raucous and messy spaces where the body is free to celebrate its questioning as well as the depths of the wisdom and knowledge it holds and sometimes reveals *Roma/Gypsies: A European Minority* Jean-Pierre Liégeois, Nicolae Gheorghe, 1995-10-01 The Roma Gypsy community has been persecuted in Europe throughout history whether through banishment Roma Gypsy hunts or the Roma Gypsy Holocaust of the twentieth century Roma Gypsies A European Minority charts the course of these events on the Roma Gypsy consciousness and examines current day policies of exclusion containment and assimilation whilst also considering the position of Roma Gypsy communities in Eastern and Central Europe in the wake of the fall of communism The authors Jean Pierre Li geois and Nicolae Gheorghe renowned experts on this subject discuss European and international institutions responses to the growing sense of shared identity that exists among Roma Gypsy people highlighting the achievements that have been made to date and outlining the many issues still to be resolved To this end Roma Gypsies A European Minority concludes with a set of recommendations concerning identity non discrimination equality asylum participation education and self designation arguing that a European wide integrated approach to these issues is long overdue Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues Flamenco William Washabaugh, 2021-02-25 Flamenco is renowned for its passion and flamboyance Yet because it generates such visceral responses it is often overlooked as a site for subtler discourses This absorbing book articulates powerful and convincing arguments on such key subjects as ethnicity irony authenticity the body and resistance Franco s politics of original sin had left its mark on every aspect of Spanish life between 1936 and 1975 and flamenco music was no exception Although widely portrayed as an apolitical even frivolous form of entertainment flamenco is shown here to have played a role in both the

strategies of Franco's supporters and of those who opposed him. The author explores how the meaning of flamenco shifts according to the social, cultural, and historical contexts within which it appears. In so doing, he demonstrates that flamenco is an ideal subject for analyzing the construction and appropriation of popular culture given the way in which it was developed for middle-class audiences, converted into grand spectacle, and conscripted to serve political ends. *Flamenco - All You Wanted to Know*, Emma Martínez, 2011-02-24. This landmark historical text delivers the goods promised in its title. It does not address flamenco dance whatsoever, focusing instead on flamenco song forms, with a special chapter devoted to the role of the guitar. Includes Spanish lyrics for dozens of flamenco songs along with English translations and interpretive notes. A glossary of flamenco terminology plus a recommended bibliography and discography are also provided. Informal in its demeanor, this carefully researched, insightful book will help you develop a deeper appreciation for the flamboyant art of flamenco.

Made in Spain, Silvia Martínez, Héctor Fouce, 2013-07-18. *Made in Spain: Studies in Popular Music* will serve as a comprehensive and rigorous introduction to the history, sociology, and musicology of 20th-century Spanish popular music. The volume will consist of 16 essays by leading scholars of Spanish music and will cover the major figures, styles, and social contexts of pop music in Spain. Although all the contributors are Spanish, the essays will be expressly written for an international, English-speaking audience. No knowledge of Spanish music or culture will be assumed. Each section will feature a brief introduction by the volume editors, while each essay will provide adequate context so readers understand why the figure or genre under discussion is of lasting significance to Spanish popular music. The book first presents a general description of the history and background of popular music, followed by essays organized into thematic sections. *New Perspectives on Imagology*, 2022-11-14. With this volume, the editors Katharina Edtstadler, Sandra Folie, and Gianna Zocco propose an extension of the traditional conception of imagology as a theory and method for studying the cultural construction and literary representation of national, usually European, characters. Consisting of an instructive introduction and 21 articles, the book relates this sub-field of comparative literature to contemporary political developments and enriches it with new interdisciplinary, transnational, intersectional, and intermedial perspectives. The contributions offer: 1. a reconsideration and update of the field's methods, genres, and theoretical frames; 2. trans/post-national migratory and marginalized perspectives beyond the European nation-state; 3. insights into geopolitical dichotomies such as Orient/Occident; 4. intersectional approaches considering the entanglements of national images with notions of age, class, gender, sexuality, and ethnicity; race; 5. investigations of the role of national images in visual narratives and music.
