The Road to Mass Democracy
C. H. Hoebeke, 2014-09-15 Before the Seventeenth Amendment US senators were elected by state legislatures To end the supposed corruption of state machines and make the Senate more responsive to the legislative needs of the industrial era the Senate was made a popularly elected body in 1913 Meanwhile the spread of information and communications technology it was argued had rendered indirect representation through state legislators unnecessary However C H Hoebeke contends none of these reasons accorded with the original intent of the Constitution's framers To the founders democracy simply meant the absolute rule of the majority They proposed instead a mixed Constitution an ancient ideal under which democracy was only one element in a balanced republic Hoebeke demonstrates that the states which were to provide the aristocratic Senate and the monarchical president never resisted egalitarian encroachments and settled for popular expedients when electing both presidents and senators long before the formal cry for amendment The Road to Mass Democracy addresses the corruption character and conduct of senate candidates and other issues relating to the triumph of plebiscitary government over representative checks and balances This work offers a provocative readable and often satiric reexamination of America's attempt to solve the problems of democracy with more democracy

Shadow Elite Janine R. Wedel, 2009-11-10 It can feel like we're swimming in a sea of corruption It's unclear who exactly is in charge and what role they play The same influential people seem to reappear time after time in different professional guises pressing their own agendas in one venue after another According to award winning public policy scholar and anthropologist Janine Wedel these are the powerful shadow elite the main players in a vexing new system of power and influence In this groundbreaking book Wedel charts how this shadow elite loyal only to their own challenge both governments rules of accountability and business codes of competition to accomplish their own goals From the Harvard economists who helped privatize post Soviet Russia and the neoconservatives who have helped privatize American foreign policy culminating with the debacle that is Iraq to the many private players who daily make public decisions without public input these manipulators both grace the front pages and

operate behind the scenes Wherever they maneuver they flout once sacrosanct boundaries between state and private Profoundly original *Shadow Elite* gives us the tools we need to recognize these powerful yet elusive players and comprehend the new system Nothing less than our ability for self government and our freedom are at stake *Navigating the Transnational in Modern American Literature and Culture* Tara Stubbs, Doug Haynes, 2017-03-16 This study develops the important work carried out on American literature through the frameworks of transnational transatlantic and trans local studies to ask what happens when these same aspects become intrinsic to the critical narrative Much cultural criticism since the 1990s has sought to displace perceptions of American exceptionalism with broader notions of Atlanticism transnationalism world system and trans localism as each has redefined the US and the world more generally This collection shows how the remapping of America in terms of global networks and as a set of particular localities or even glocalities now plays out in Americanist scholarship reflecting on the critical consequences of the spatial turn in American literary and cultural studies Spanning twentieth and twenty first century American poetry fiction memoir visual art publishing and television and locating the US in Caribbean African Asian European and other contexts this volume argues for a re modelling of American ness with the transnational as part of its innate rhetoric It includes discussions of travel migration disease media globalization and countless other examples of inflowing Essays focus on subjects tracing the contemporary contours of the transnational such as the role of the US in the rise of the global novel the impact of Caribbean history on American thought and vice versa transatlantic cultural and philosophical genealogies and correspondences and the exchanges between the poetics of American space and those of other world spaces Asking questions about the way the American eye has traversed and consumed the objects and cultures of the world but how that world is resistant this volume will make an important contribution to American and Transatlantic literary studies **Why Did the United States Invade Iraq?** Jane Cramer, A. Trevor Thrall, 2013-03 This edited volume presents the foremost scholarly thinking on why the US invaded Iraq in 2003 a pivotal event in both modern US foreign policy and international politics In the years since the US invasion of Iraq it has become clear that the threat of weapons of mass destruction was not as urgent as the Bush administration presented it and that Saddam Hussein was not involved with either Al Qaeda or 9 11 Many consider the war a mistake and question why Iraq was invaded A majority of Americans now believe that the public were deliberately misled by the Bush administration in order to bolster support for the war Public doubt has been strengthened by the growing number of critical scholarly analyses and in depth journalistic investigations about the invasion that suggest the administration was not candid about its reasons for wanting to take action against Iraq This volume begins with a survey of private scholarly views about the war s origins then assesses the current state of debate by organising the best recent thinking by foreign policy and international relations experts on why the US invaded Iraq The book covers a broad range of approaches to explaining Iraq the role of the uncertainty of intelligence cognitive biases ideas Israel and oil highlighting areas of both agreement and disagreement This

book will be of much interest to students of the Iraq War US foreign and security policy strategic studies Middle Eastern politics and IR Security Studies in general **Len Lye** Roger Horrocks,2001 Lye was in the words of poet Alistair Reid the least boring person who ever lived Even after his death he continues to be a controversial figure as his plans for giant moving sculptures are at last being realised in New Zealand BOOK JACKET *Research Awards Index* ,1981 **Notes to**
