Gary Colombo • Robert Cullen • Bonnie Lisle

and the labor movement Examining work from writers like Rebecca Harding Davis Jack London and Countee Cullen he shows how concepts of salvation fundamentally intersect with matters of race gender and class and proposes a theory that explains the enchantment of modern American society Orthodoxies in Massachusetts Janice Knight,1994 Reexamining religious culture in seventeenth century New England Janice Knight discovers a contest of rival factions within the Puritan orthodoxy Arguing that two distinctive strains of Puritan piety emerged in England prior to the migration to America Knight describes a split between rationalism and mysticism between theologies based on God s command and on God s love A strong countervoice expressed by such American divines as John Cotton John Davenport and John Norton and the Englishmen Richard Sibbes and John Preston articulated a theology rooted in Divine Benevolence rather than Almighty Power substituting free testament for conditional covenant to describe God s relationship to human beings Knight argues that the terms and content of orthodoxy itself were hotly contested in New England and that the dominance of rationalist preachers like Thomas Hooker and Peter Bulkeley has been overestimated by scholars Establishing the English origins of the differences Knight rereads the controversies of New England s first decades as proof of a continuing conflict between the two religious ideologies The Antinomian Controversy provides the focus for a new understanding of the volatile processes whereby orthodoxies are produced and contested This book gives voice to this alternative piety within what is usually read as the univocal orthodoxy of New England and shows the political social and literary implications of those differences **A Rereading of Romans** Stanley Kent Stowers,1994-01-01 Paul s Letter to the Romans is one of the most influential writings of Christian theology In this reinterpretation the author provides a new reading that places Romans within the sociocultural historical and rhetorical contexts of Paul s world *Seduced, Abandoned, and Reborn* Rodney Hessinger,2013-03-25 *Seduced Abandoned and Reborn* exposes the fears expressed by elders about young people in the early American republic Those authors educators and moral reformers who aspired to guide youth into respectable stations perceived new dangers in the decades following independence Battling a range of seducers in the burgeoning marketplace of early America from corrupt peers to licentious prostitutes from pornographic authors to firebrand preachers these self proclaimed moral guardians crafted advice and institutions for youth hoping to guide them safely away from harm and toward success By penning didactic novels and advice books while building reform institutions and colleges they sought to lead youth into dutiful behavior But thrust into the market themselves these moral guides were forced to compromise their messages to find a popular audience Nonetheless their calls for order did have lasting impact In urban centers in the Northeast middle class Americans became increasingly committed to their notions of chastity piety and hard work Focusing on popular publications and large urban centers Hessinger draws a portrait of deeply troubled reformers men and women who worried incessantly about the vulnerability of youth to the perils of prostitution promiscuity misbehavior and revolt Benefiting from new insights in cultural history *Seduced Abandoned and Reborn* looks at the way the categories of gender age and class took rhetorical

shape in the early republic In trying to steer young adults away from danger these advisors created values that came to define the emerging middle class of urban America *Making German Jewish Literature Anew* Katja Garloff,2022-12-06 In *Making German Jewish Literature Anew* Katja Garloff traces the emergence of a new Jewish literature in Germany and Austria from 1990 to the present The rise of new generations of authors who identify as both German and Jewish and who often sustain additional affiliations with places such as France Russia or Israel affords a unique opportunity to analyze the foundational moments of diasporic literature *Making German Jewish Literature Anew* is structured around a series of founding gestures performing authorship remaking memory and claiming places Garloff contends that these founding gestures are literary strategies that reestablish the very possibility of a German Jewish literature several decades after the Holocaust *Making German Jewish Literature Anew* offers fresh interpretations of second generation authors such as Maxim Biller Doron Rabinovici and Barbara Honigmann as well as of third generation authors many of whom come from Eastern European and or mixed religion backgrounds These more recent writers include Benjamin Stein Lena Gorelik and Katja Petrowskaja Throughout the book Garloff asks what exactly marks a given text as Jewish the author s identity intended audience thematic concerns or stylistic choices and reflects on existing definitions of Jewish literature

Adrienne Rich s Later Poetry Alec Marsh,2024-12-12 *Reorienting understandings of Adrienne Rich s later work* through her interest in Marx and Marxist politics this book engages with this overlooked part of her oeuvre through considerations of issues such as race nationhood and gender From 1983 onward after she visited revolutionary Nicaragua until the end of her life Rich s political vision can best be described as Marxist Humanist Until recently very little attention has been paid to Rich s interest in Marx there is no in depth treatment of the effect of Marx s humanistic philosophy on Rich s later work or even on her unwavering but altered dedication to Women s Liberation This book fills this gap showing how Rich s discovery of Marx s humanism affected her poetry In doing so it makes a significant intervention into debates about the direction of American poetics and argues powerfully for a greater consciousness of political engagement through poetry

Conversion and the Rehabilitation of the Penal System Andrew Skotnicki,2019-03-01 The Cincinnati Penal Congress of 1870 ushered in the era of progressive penology the use of statistical and social scientific methodologies commitment to psychiatric and therapeutic interventions and a new innovation the reformatory as the locus for the application of these initiatives The prisoner was now seen as a specimen to be analyzed treated and properly socialized into the triumphal current of American social and economic life The Progressive rehabilitative initiatives succumbed in the 1970s to withering criticism from the proponents of equally futile strategies for addressing the crime problem retribution deterrence and selective incapacitation The early Christian community developed a methodology for correcting human error that featured the unprecedented belief that a period of time spent in a given penitential locale with the aid and encouragement of the community was sufficient in and of itself to heal the alienation and self loathing caused by sin and to lead an individual to full reincorporation into the community The correctional practice was based upon the conviction that cooperative sociability or conversion is possible regardless of the specific offense without any need to inflict suffering or to use the act of punishment as a warning to potential offenders or to undertake programmatic interventions into the lives of the incarcerated for the purpose of rehabilitating them Andrew Skotnicki contends that the modern practice of criminal detention is a protracted exercise in needless violence predicated upon two foundational errors The first is an inability to see the imprisoned as human beings fully capable of responding to an affirmative accompaniment rather than maltreatment and invasive forms of therapy The second is a pervasive dualism that constructs a barrier between detainees and those empowered to supervise rehabilitate and punish them In this book Skotnicki argues that the criminal justice system can only be rehabilitated by eliminating punishment and policies based upon deterrence rehabilitation and the incapacitation of the urban poor and returning to the original justification for the practice of confinement conversion
