Research Methods In Human Rights A Handbook:

Research Methods in Human Rights Bård A. Andreassen,Claire Methven O'Brien,Hans-Otto Sano,2024-05-02 In this thoroughly revised second edition editors B rd A Andreassen Claire Methven O Brien and Hans Otto Sano advance contemporary discussions on human rights methodology bringing together an array of leading scholars to offer instruction and guidance on the methodological approaches to human rights research Research Methods in Human Rights Bård A. Andreassen,Hans-Otto Sano,Siobhán McInerney-Lankford,2017-05-26 Methodological discussion has largely been neglected in human rights research with legal scholars in particular tending to address research methods and methodological reflection implicitly rather than explicitly This book advances thinking on human rights methodology offering instruction and guidance on the methodological options for human rights research *Research Methods for International Human Rights Law* Damian Gonzalez-Salzberg,Loveday Hodson,2019-06-13 The study and teaching of international human rights law is dominated by the doctrinal method A wealth of alternative approaches exists but they tend to be discussed in isolation from one another This collection focuses on cross theoretical discussion that brings together an array of different analytical methods and theoretical lenses that can be used for conducting research within the field As such it provides a coherent accessible and diverse account of key theories and methods A distinctive feature of this collection is that it adopts a grounded approach to international human rights law through demonstrating the application of specific research methods to individual case studies By applying the approach under discussion to a concrete case it is possible to better appreciate the multiple understandings of international human rights law that are missed when the field is only comprehended though the doctrinal method Furthermore since every contribution follows the same uniform structure this allows for fruitful comparison between different approaches to the study of our discipline

Menschenrechtspolitik kontern Philipp Kandler,2020-08-19 Die Diktaturen in Argentinien und Chile waren in den 1970er und 1980er Jahren prominente Ziele von Menschenrechtskritik Es berrascht daher dass sie als Akteure in der boomenden Geschichte der Menschenrechte bisher kaum beachtet wurden Philipp Kandler zeigt auf wie die beiden lateinamerikanischen Regime eine Anti Menschenrechtspolitik entwickelten Sie versuchten etwa Kritik in internationalen Foren bilateralen Beziehungen und westlicher ffentlichkeit zu verhindern oder zu minimieren und negative Folgen f r die Stabilit t ihrer nationalen Herrschaft abzufedern Advanced Introduction to Legal Research Methods Ernst H. Ballin,2020-10-30 Written by Ernst Hirsch Ballin this original Advanced Introduction uncovers the foundations of legal research methods an area of legal scholarship distinctly lacking in standardisation The author shows how such methods differ along critical empirical and fundamental lines and how our understanding of these is crucial to overcoming crises and restoring trust in the law Key topics include a consideration of law as a normative language and an examination of the common objects of legal research **The Complexity of Human Rights** Philip Alston,2024-02-08 This book provides the first systematic assessment from a human rights law perspective of the landmark contributions of the

renowned legal anthropologist Sally Engle Merry What impact does over simplification have on human rights debates The understandable tendency to present them as a single universal and immutable concept ignores their complexity and by extension only serves to weaken them Merry and her colleagues transformed human rights thinking by highlighting the process of vernacularization which sees rights discourse as being unavoidably dependent upon translation and interpretation She also warned of the pitfalls of excessive reliance upon statistical and other indicators through the process of quantification Here the leading voices in the field assess the significance of these contributions **Of Risks and Normative Responses** Christina Anikó Simmig,2023-09-23 Disaster losses in the context of natural hazards continue to rise despite a growing understanding of disaster risks and measures to reduce them One obstacle to enhancing private and public disaster risk reduction is the influence of the distorted risk perception of laypeople The book argues for the necessity of public regulations and explores means to mitigate the consequences of such distorted risk perception through legal measures and adjustments to political decision making in Council of Europe member states while respecting the value of autonomy and democratic principles In terms of collective decision making the book advocates for the implementation of deliberative fora in the democratic decision making process to mitigate the influence of distorted risk perception associated with natural hazards Additionally the book discusses a range of disaster risk reducing measures that member states may lawfully implement to protect individuals and communities from the consequences of distorted risk perceptions related to common natural hazards To underscore the merits of strengthening disaster risk reduction from the bottom up this book demonstrates how fundamental rights and democratic values impede attempts to increase DRR from the top down even in cases where people's risk perceptions are distorted In doing so the book addresses the issue of disaster risk reduction in a novel way by exposing how legal and political barriers to disaster loss reduction can be overcome by giving higher priority to mitigating distorted risk perceptions

The Interdependence of the Convention on the Rights of the Child Naomi Lott,2025-07-01

The book critically engages with the right to play and other Convention rights to explore their interdependence and interconnectivity The book brings together experts across various children s rights topics and invites them to consider the intersections of their work with the child s right to play It furthers the understanding and implementation of the right to play as this novel area of research develops The book demonstrates both the interdependence of the rights within the Convention and the unique and critical role of the right to play in achieving the aims of the Convention and the rights therein It also extends the theoretical methodological and critical scope of the discipline by considering children s rights in this

interdependent manner. The contributions to this edited collection explore the role of the right to play in meeting obligations pertaining to the digital environment identity rights education climate change and environmental health refugees girls rights social protection healthcare and disability and vice versa. By drawing together original and creative approaches to a number of pressing social questions and issues relating to human rights this book has tangible application for developing both the content of the right to play and the potentials of this right for the wider child rights project. Furthermore this book is pioneering in the field of children's rights in two key ways. Not only does it serve to contribute to filling a significant gap in the literature on the right to play but it also stands as a crucial example of interdisciplinary legal research. Such an approach is critical for the field of children's rights due to the nature of childhood and the multidisciplinary relevance of children's rights and children's issues. This book thus serves as an example to push the field to be more contextual and interdisciplinary.

Climate Litigation and Vulnerabilities Maria Antonia Tigre, Melanie Jean Murcott, Susan Ann Samuel, 2025-06-19. This volume explores climate litigation as a means to tackle the rights and socio ecological intergenerational gender racial and other justice implications of the ever growing vulnerability to climate change whilst critically engaging with the notions of vulnerability and intersectional climate justice. With insightful analysis thought provoking case studies and a global perspective the collection illustrates the opportunities and pitfalls of litigation pursued by people from the Global South who face intersecting forms of oppression and marginalisation amidst the climate crisis. Contributors discuss litigation strategy novel legal arguments institutional barriers and unique socio ecological and political challenges in the Global South. Divided into two parts the book recognises that climate change is an existential threat to humanity more frequently being tackled in courts worldwide. The first part exposes the limits of litigation as a mechanism for intersectional climate justice for vulnerable people in the Global South. The second part highlights innovations in climate litigation in pursuit of intersectional climate justice. The book will be of interest to academics researchers and policymakers in the areas of human rights law environmental law climate law Latin American studies South Asian studies and African studies.

[The Domestic Institutionalisation of Human Rights](#) Stéphanie Lagoutte,Sébastien Lorion,Steven L. B. Jensen,2021-08-19 This book explores recent developments pointing towards a domestic institutionalisation of human rights composed of converging international trends prescribing the setting up of domestic institutions and the need for a national human rights systems approach

Building on new compliance theories innovative arrangements have resolutely appeared around the turn of the millennium and some are now legally enshrined in human rights treaties In their introduction the editors capture these developments their main elements and key points of debate They outline a research agenda aimed at structuring and generating further attention from both academics and practitioners As a stepping stone the book singles out the purposeful attempt by the United Nations and others to frame these trends around the concept of National Human Rights System The chapters assess various models and cases put forward for such systems Each chapter highlights the specific forms of institutions being promoted and their intended domestic interactions and discusses how these institutions are leveraged and strengthened by international bodies Authors critically review their implications for the future of human rights paving the way for additional

research The chapters in this book were originally published as a special issue of the Nordic Journal of Human Rights
