It is structured around project management knowledge areas and details not only the FIDIC works contracts Red Yellow Silver 2017 Reprint 2022 Emerald 2019 Gold 2008 and Green Book 2021 but also the project management requirements of the contract between the Employer and Engineer White Book 2017 and the FIDIC supply chain contracts and explains how these all interface in project governance. Linking the project management knowledge areas from the PMBOK and its Construction Extension with the FIDIC Body of Knowledge FBOK, the book provides recommendations for integration of best practice and innovations. It illustrates these processes with 54 flowcharts and 16 case studies as well as a railway scenario demonstrating the application of the book's recommended procedures. This will be an invaluable source of practical guidance for employers, contractors and engineers responsible for procuring and managing construction projects.
