Anthony J. Barker

Roll Jordan The World Slaves Made Eugene D Genovese:

Roll, Jordan, Roll Eugene D. Genovese, 2011-02-09 A testament to the power of the human spirit under conditions of extreme oppression this landmark history of slavery in the South challenged conventional views by illuminating the many forms of resistance to dehumanization that developed in slave society Displaying keen insight into the minds of both enslaved persons and slaveholders historian Eugene Genovese investigates the ways that enslaved persons forced their owners to acknowledge their humanity through culture music and religion He covers a vast range of subjects from slave weddings and funerals to language food clothing and labor and places particular emphasis on religion as both a major battleground for psychological control and a paradoxical source of spiritual strength A winner of the Bancroft Prize Slavery and the Making of America James Oliver Horton, Lois E. Horton, 2004-11-01 The history of slavery is central to understanding the history of the United States *Slavery and the Making of America* offers a richly illustrated vividly written history that illuminates the human side of this inhumane institution presenting it largely through stories of the slaves themselves Readers will discover a wide ranging and sharply nuanced look at American slavery from the first Africans brought to British colonies in the early seventeenth century to the end of Reconstruction The authors document the horrors of slavery particularly in the deep South and describe the slaves valiant struggles to free themselves from bondage There are dramatic tales of escape by slaves such as William and Ellen Craft and Dred Scott's doomed attempt to win his freedom through the Supreme Court We see how slavery engendered violence in our nation from bloody confrontations that broke out in American cities over fugitive slaves to the cataclysm of the Civil War The book is also filled with stories of remarkable African Americans like Sergeant William H Carney who won the Congressional Medal of Honor for his bravery at the crucial assault on Fort Wagner during the Civil War and Benjamin Pap Singleton a former slave who led freed African Americans to a new life on the American frontier Filled with absorbing and inspirational accounts highlighted by more than one hundred pictures and illustrations *Slavery and the Making of America* is a gripping account of the struggles of African Americans against the iniquity of slavery

Reconstructions Thomas J. Brown, 2008-09-23 The pivotal era of Reconstruction has inspired an outstanding historical literature In the half century after W E B DuBois published *Black Reconstruction in America* 1935 a host of thoughtful and energetic authors helped to dismantle racist stereotypes about the aftermath of emancipation and Union victory in the Civil War The resolution of long running interpretive debates shifted the issues at stake in Reconstruction scholarship but the topic has remained a vital venue for original exploration of the American past In *Reconstructions New Perspectives on the Postbellum United States* eight rising historians survey the latest generation of work and point to promising directions for future research They show that the field is opening out to address a wider range of adjustments to the experiences and effects of Civil War Increased interest in cultural history now enriches understandings traditionally centered on social and political history Attention to gender has joined a focus on labor as a powerful strategy for analyzing negotiations over private

and public authority The contributors suggest that Reconstruction historiography might further thrive by strengthening connections to such subjects as western history legal history and diplomatic history and by redefining the chronological boundaries of the postwar period The essays provide more than a variety of attractive vantage points for fresh examination of a major phase of American history By identifying the most exciting recent approaches to a theme previously studied so ably the collection illuminates the creative process in scholarly historical literature Reading Southern History Glenn

Feldman,2001-10-09 This collection of essays examines the contributions of some of the most notable interpreters of American southern history and culture The volume includes 18 chapters on such notable historians as John Hope Franklin Anne Firor Scott and W J Cash **A Family Venture** Joan E. Cashin,1991-10-24 This book is about the different ways that men and women experienced migration from the Southern seaboard to the antebellum Southern frontier Based upon extensive research in planter family papers Cashin studies how the sexes went to the frontier with diverging agendas men tried to escape the family while women tried to preserve it On the frontier men usually settled far from relatives leaving women lonely and disoriented in a strange environment As kinship networks broke down sex roles changed and relations between men and women became more inequitable Migration also changed race relations because many men abandoned paternalistic race relations and abused their slaves However many women continued to practice paternalism and a few even sympathized with slaves as they never had before Drawing on rich archival sources Cashin examines the decision of families to migrate the effects of migration on planter family life and the way old ties were maintained and new ones formed

Memories of the Enslaved Spencer R. Crew,Lonnie G. Bunch III,Clement A. Price,2015-09-15 This book offers a first person perspective on the institution of slavery in America providing powerful engaging interviews from the WPA slave narrative collection that enable readers to gain a true sense of the experience of enslavement Today s students understandably have a hard time imagining what life for slaves more than 150 years ago was like The best way to communicate what slaves experienced is to hear their words directly The material in this concise single volume work illuminates the lives of the last living generation of enslaved people in the United States former slaves who were interviewed about their experiences in the 1930s Based on more than 2 000 interviews the transcriptions of these priceless interviews offer primary sources that tell a diverse and powerful picture of life under slavery The book explores seven key topics childhood marriage women work emancipation runaways and family Through the examination of these subject areas the interviews reveal the harsh realities of being a slave such as how slave women were at the complete mercy of the men who operated the places where they lived how nearly every enslaved person suffered a beating at some point in their lives how enslaved families commonly lost relatives through sale and how enslaved children were taken from their parents to care for the children of slaveholders The thematic organizational format allows readers to easily access numerous excerpts about a specific topic quickly and enables comparisons between individuals in different locations or with different slaveholders to

identify the commonalities and unique characteristics within the system of slavery **Southern Society and Its Transformations, 1790-1860** Susanna Delfino, Michele Gillespie, Louis M. Kyriakoudes, 2011-06-15 In *Southern Society and Its Transformations* a new set of scholars challenge conventional perceptions of the antebellum South as an economically static region compared to the North Showing that the pre Civil War South was much more complex than once thought the essays in this volume examine the economic lives and social realities of three overlooked but important groups of southerners the working poor non slaveholding whites and middling property holders such as small planters professionals and entrepreneurs The nine essays that comprise *Southern Society and Its Transformations* explore new territory in the study of the slave era South conveying how modernization took shape across the region and exploring the social processes involved in its economic developments The book is divided into four parts each analyzing a different facet of white southern life The first outlines the legal dimensions of race relations exploring the effects of lynching and the significance of Georgia's vagrancy laws Part II presents the advent of the market economy and its effect on agriculture in the South including the beginning of frontier capitalism The third section details the rise of a professional middle class in the slave era and the conflicts provoked The book's last section deals with the financial aspects of the transformation in the South including the credit and debt relationships at play and the presence of corporate entrepreneurship Between the dawn of the nation and the Civil War constant change was afoot in the American South Scholarship has only begun to explore these progressions in the past few decades and has given too little consideration to the economic developments with respect to the working class experience These essays show that a new generation of scholars is asking fresh questions about the social aspects of the South's economic transformation *Southern Society and Its Transformations* is a complex look at how whole groups of traditionally ignored white southerners in the slave era embraced modernizing economic ideas and actions while accepting a place in their race based world This volume will be of interest to students of Southern and U S economic and social history

Slavery and Anti-Slavery in Mauritius, 1810-33 Anthony J. Barker, 1996-12-13 This is a study of a unique slave colony and of antislavery conflicts prior to the Emancipation Act of 1833 In their hostility to a booming slave based sugar economy abolitionists produced dubious propaganda and quarrelled bitterly without moderating the cruelty of the slave regime Nevertheless the reforming impulse demanded documentation which illuminates the working lives and social interactions of a slave population drawn from Africa India Madagascar and numerous smaller Indian Ocean islands much more diverse than any in the Americas **Emotional and Sectional Conflict in the Antebellum United States** Michael E.

Woods, 2014-08-11 This book explores how specific emotions shaped Americans' perceptions of and responses to the sectional conflict over slavery in the United States The Democratization of American Christianity Nathan O. Hatch, 1991-01-23 A provocative reassessment of religion and culture in the early days of the American republic The so called Second Great Awakening was the shaping epoch of American Protestantism and this book is the most important study of it ever published

James Turner Journal of Interdisciplinary History Winner of the John Hope Franklin Publication Prize the Society for Historians of the Early American Republic book prize and the Albert C Outler Prize In this provocative reassessment of religion and culture in the early days of the American republic Nathan O Hatch argues that during this period American Christianity was democratized and common people became powerful actors on the religious scene Hatch examines five distinct traditions or mass movements that emerged early in the nineteenth century the Christian movement Methodism the Baptist movement the black churches and the Mormons showing how all offered compelling visions of individual potential and collective aspiration to the unschooled and unsophisticated Inequality David Grusky, Szonja Szelenyi, 2018-05-04 This book redirects the focus of public debate to issues of gender and racial segregation and suggests that they should be fundamental to thinking about the status of black Americans and the origins of the urban underclass It is a starting point for students and advanced scholars of inequality **Critical White Studies** Richard Delgado, Jean Stefancic, 1997-06-29 This work drawn from sociology law history cultural studies and literature presents an analysis of the emerging field of whiteness studies as the next step of critical race theory It investigates what it means to be white from both a nonwhite and a white perspective **Proslavery and Sectional Thought in the Early South, 1740-1829** Jeffrey Robert Young, 2020-09-23 Thirteen treatises recall the history of slavery's defenders beginning in the colonial South In Proslavery and Sectional Thought in the Early South 1740 1829 Jeffrey Robert Young has assembled thirteen texts that reveal the development of proslavery perspectives across the colonial and early national South from Maryland to Georgia The tracts lectures sermons and petitions in this volume demonstrate that defenses of human bondage had a history in southern thought that long predated the later antebellum era traditionally associated with the genesis of such positive defenses of slavery Previous anthologies notably Drew Gilpin Faust's The Ideology of Slavery have made the perspectives of antebellum slavery's defenders widely available to scholars and students but earlier proslavery thinkers have remained largely inaccessible to modern readers Young's anthology offers a corrective In his introduction to the volume Young explores the relationship between proslavery thought Christianity racism and sectionalism He emphasizes the ways in which justifications for slavery were introduced into the American South by reformers who hoped to integrate the region into a transatlantic religious community These early proponents of slavery tended to minimize racial distinctions between master and slave and they hoped to minimize the cultural distance between southern plantations and English society Only in the early nineteenth century with the rise of an increasingly influential abolition movement did proslavery thinkers begin to justify their beliefs with approaches that underscored differences between North and South Even then the theorists included in this anthology emphasized the extent to which southern slaveholders' claims to mastery were rooted in a Western moral tradition that reached back to antiquity **Slave Subjectivities in the Iberian Worlds**, 2023-12-18 The Iberian world played a key role in the global trade of enslaved people from the 15th century onwards Scholars of Iberian forms of slavery face challenges

accessing the subjectivity of the enslaved given the scarcity of autobiographical sources This book offers a compelling example of innovative methodologies that draw on alternative archives and documents such as inquisitorial and trial records to examine enslaved individuals and collective subjectivities under Iberian political dominion It explores themes such as race gender labour social mobility and emancipation religion and politics shedding light on the lived experiences of those enslaved in the Iberian world from the Indian Ocean to the Atlantic Contributors are Magdalena Candiotti Robson Pedrosa Costa Raulo da Silva Ehalt James Fujitani Michel Kabalan Silvia Lara Marta Macedo Hebe Mattos Michelle McKinley Sophia Blea Nunez Fernanda Pinheiro Jo o Jos Reis Patricia Faria de Souza Lisa Surwillo Miguel Valerio and Lisa Voigt *Slave Subjectivities in the Iberian Worlds* is now available in paperback for individual customers *Black Odyssey* Nathan Irvin Huggins,2011-01-05 This classic work of scholarship and empathy tells the story of the self creation of the African American people It assesses the full impact of the Middle Passage the most traumatizing mass human migration in modern history and of North American slavery both on the enslaved and on those who enslaved them It explores the ways in which a nominally free society perverted its own freedoms and denied the fact that an inhuman institution lies at the heart of the American experience The authority and eloquence of this work make it essential reading for all who want to understand the American past and present **Conservatives Against Capitalism** Peter Kolozi,2017-08-08 Few beliefs seem more fundamental to American conservatism than faith in the free market Yet throughout American history many of the major conservative intellectual and political figures have harbored deep misgivings about the unfettered market and its disruption of traditional values hierarchies and communities In *Conservatives Against Capitalism* Peter Kolozi traces the history of conservative skepticism about the influence of capitalism on politics culture and society Kolozi discusses conservative critiques of capitalism from its threat to the Southern way of life to its emasculating effects on American society to the dangers of free trade considering the positions of a wide ranging set of individuals including John Calhoun Theodore Roosevelt Russell Kirk Irving Kristol and Patrick J Buchanan He examines the ways in which conservative thought went from outright opposition to capitalism to more muted critiques ultimately reconciling itself to the workings and ethos of the market By analyzing the unaddressed historical and present day tensions between capitalism and conservative values Kolozi shows that figures regarded as iconoclasts belong to a coherent tradition and he creates a vital new understanding of the American conservative pantheon **Slavery, Religion and Regime** Phillip J. Linden Jr. S.S J.,2019-08-26 *Slavery Religion and Regime* challenged us to question the basis of a society founded on freedom for the elite and the subjugation and enslavement of natives and imported victims of slavery and slave trading The purpose of this book is to establish a critical theological interpretation of the interplay among the significant political economic and religious expressions of modernity in the founding of industrial societies then and today The elite and justice for all while it heralds individualism materialism conceived in violence The dehumanization process along with the killing of natives is a history that extends up to the present day **Secrets,**

Silences and Betrayals Ndi, Bill F., 2015-08-06 *Secrets Silences and Betrayals* is an invitation to readers to consider factoring in the often discarded or censored but useful information held by the dominated. The book's principal claim is that the unsaid weighs in significantly on the scale of semantic construction as that which is said. Thus it legitimates the impact of the absentee in broadening and clarifying knowledge and understanding in most disciplines. In other words, just as exogenous epistemologies have underlain and explicated the basis for understanding diverse encounters, social, political, historical, cultural, literary, etc. *Secrets Silences and Betrayals* challenges from a pluridisciplinary angle such highly dominant approaches to investigating the origin, nature, ways of knowing, and limits of human knowledge. It thus yields to the deontological basis to critically reexamine our understanding of the world around us. It is in this regard that the present volume points towards the need for human history to become a cumulative record and re-recording of every human journey and endeavor in life; it brings together disparate voices illuminating topical issues that would be or have been legated to posterity as nonexistent, partial, or half truths.

Main Currents in Caribbean Thought Gordon K. Lewis, 2004-01-01 *Main Currents in Caribbean Thought* probes deeply into the multicultural origins of Caribbean society, defining and tracing the evolution of the distinctive ideology that has arisen from the region's unique historical mixture of peoples and beliefs. Among the topics that noted scholar Gordon K. Lewis covers are the sixteenth and seventeenth century beginnings of Caribbean thought, pro and antislavery ideologies, the growth of Antillean nationalist and anticolonialist thought during the nineteenth century, and the development of the region's characteristic secret religious cults from imported religions and European thought. Since its original publication in 1983, *Main Currents in Caribbean Thought* has remained one of the most ambitious works to date by a leader in modern Caribbean scholarship. By looking into the Caribbean mind, Lewis shows how European, African, and Asian ideas became creolized and Americanized, creating an entirely new ideology that continues to shape Caribbean thought and society today.

Towards the Abolition of Whiteness David R. Roediger, 1994-03-17 *Counting the costs of whiteness in the American past and present*

Embracing the Track of Expression: An Psychological Symphony within **Roll Jordan The World Slaves Made Eugene D Genovese**

In a world taken by displays and the ceaseless chatter of quick communication, the melodic elegance and psychological symphony created by the written word often fade in to the back ground, eclipsed by the constant noise and disturbances that permeate our lives. Nevertheless, set within the pages of **Roll Jordan The World Slaves Made Eugene D Genovese** an enchanting literary prize overflowing with raw thoughts, lies an immersive symphony waiting to be embraced. Crafted by an outstanding musician of language, this captivating masterpiece conducts readers on a mental trip, skillfully unraveling the concealed melodies and profound influence resonating within each cautiously crafted phrase. Within the depths of the emotional assessment, we can discover the book is central harmonies, analyze its enthralling writing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
