The Drama of a Rural Community's Life Cycle S. Roy Kaufman, 2020-09-22. Rural communities depend on the health of the agrarian cultures that compose them. These cultures grow out of the symbiotic relationship between a particular landscape and the human community that lives on and uses the land. Agrarian cultures had their origin in the development of agriculture and gave birth to the civilizations and empires of history. Based on the exercise of hierarchical power characteristic of their nature, empires and civilizations are always a threat to the welfare of their agrarian cultures that by nature tend to be local, relational, reciprocal and ecological. This is the story of the three Anabaptist agrarian cultures: Swiss German, Low German and Hutterian of the Freeman South Dakota rural community and their sojourn within the empires of civilization through the centuries. More specifically, this is the story of their birth, growth, maturation and death or rebirth in the particular landscape of the Great Plains to which they came from Russia in the 1870s. Here we see the agrarian cultures struggle to adapt to the new environment of the Great Plains and to maintain their unique identity while living within American society. This is the drama of a rural community's life cycle.

Kleinstadtforschung in Deutschland Lars Porsche, Annett Steinführer, Martin Sondermann, 2020-01-16. Kleinstädte spielen in der sozial und planungswissenschaftlichen Raumforschung in Deutschland nur eine untergeordnete Rolle. Auch in politischen und medialen Auseinandersetzungen werden sie in ihren Strukturen, Bedeutungen und Funktionen weder hinreichend wahrgenommen noch differenziert betrachtet. In diesem Arbeitsbericht werden nach einer Diskussion verschiedener Abgrenzungen und Definitionen der Kleinstadt wesentliche Stränge der bisherigen Forschung aufbereitet und darauf aufbauend Wissenslücken sowie Forschungsbedarfe identifiziert. Dies erfolgt für neun Themenfelder: Urbanität und

Ruralität demographische Strukturen und Entwicklungen Sozialstruktur und soziale Beziehungen Wohnen und sozialräumliche Differenzierung wirtschaftliche Entwicklung und Innovationsdynamiken Mobilität Digitale Transformation Stadtplanung und Governance sowie Zentralität Daran anschließend stehen Fragen der Methodik und Datenbestände im Mittelpunkt und für letztere auf große Defizite hingewiesen Aus der Perspektive von Forschung Lehre amtlicher Statistik und Wissenschaftspolitik werden abschließend Empfehlungen für die Kleinstadtforschung formuliert

More than Bouncing Back Anne Cafer, John J. Civil Society Marcella Ridlen Ray, 2017-12-02 Ray has written a book that should be read by anyone interested in the current debates about the general health of civil society in the United States American Journal of Sociology The formation maintenance and well being of American civil society is a topic of intense debate in the social sciences Until now this debate has lacked rigor with the term civil society commonly used interchangeably and imprecisely with other terms such as civic engagement Today's discourse also lacks methodological discipline and relies too heavily on narrowly selected evidence in support of a particular argument In this invaluable contribution to the debate Marcella Ridlen Ray supplies an empirical study based on a theoretical model of democratic civil society one that posits high levels of communication diversity autonomy mediation and voluntary association In Ray's account the emergent story of U.S. civil society is that of a dynamic institution not necessarily one that is linear in its progression It is a tale of flux resilience and stability over the long term that is consistent with subtexts on political equilibrium she notes in the work of early political analysts such as Aristotle Machiavelli Locke Burke and later Tocqueville Ray dispels the widely accepted myth that Americans are increasingly apathetic and withdrawn from common interests The evidence reveals a persistence of long standing public spiritedness despite the fact that individuals use wider discretion in deciding if and how to attach to community and despite a historical lack of enthusiasm for performing civic duties in lieu of more pleasurable leisure activity This public spiritedness continues to reflect embedded religious cultural values that disproportionately influence how and when people dedicate time and money to associational life U.S. civil society has grown more inclusive and democratic as Americans venture at growing rates across differences in perspective
