Implementing and Configuring SAP MII Abesh

Bhattacharjee, Dipankar Saha, 2009-07-26 This is a must have comprehensive guide to SAP Manufacturing Integration and Intelligence SAP MII that will teach you how to implement and configure SAP MII to fit your different manufacturing tasks and issues With this book you learn how to create composite applications that connect your business processes with your plant systems And once you know how to link your plant systems to generate comprehensive and accurate data the authors show you how to use SAP MII tools to generate accurate reports and dashboards for analysis and real time monitoring leading to a more efficient and effective shop floor

- 1 Administrating and Configuring SAP MII Learn to how to set up configure and use the various components in SAP MII to help you develop general data reports for manufacturing integration and analytics
- 2 Developing MII Composite Applications Explore the SAP MII Workbench to develop content and create different types of data queries business logic and visualizations to manage and view plant data
- 3 Managing Plant Floor Integration Get an in depth look at the integration aspects of SAP MII including how to connect to manufacturing plant floor systems using data servers and how to synchronize the plant floor with other parts of the enterprise
- 4 Implementing SAP MII Composite Applications Find out about the different implementation scenarios including the solution architectures and best practices to follow for developing and implementing SAP MII
- 5 Tips and Tricks Throughout Discover the insider information you need for developing SAP MII composite applications through its model based interface
