Sap Mii In A Mass Customization Business:

Entwicklung einer adaptiven digitalen Logistikkette für eine intelligente Fabrik im Bauwesen Bennet

Zander, 2024-07-02 Deutschland strebt bis 2045 eine Treibhausgasneutralität an und unternimmt in allen Wirtschaftssektoren Maßnahmen in diese Richtung. Da insbesondere Gebäude zu über 30 % der CO₂-Emissionen beitragen, spielt das Bauwesen eine entscheidende Rolle bei der Verlangsamung des Klimawandels. Zukünftig können im Bauwesen intelligente Fabriken einen wesentlichen Beitrag zur Reduzierung von Emissionen leisten, da in diesen die Produktion von individuellen Fassaden und Dachpaneelen für die energetische Gebäudesanierung entsprechend eines industriellen Maßstabs erfolgen kann. Dieses Buch bietet einen Ansatz für den Aufbau der Logistikkette einer intelligenten Fabrik im Bauwesen und veranschaulicht die digitale Verknüpfung von Beschaffungs-, Produktions-, Distributions- sowie Baustellenprozessen. Die Grundlage für die Systemintegration stellen Cyber-Physische Systeme, einheitliche Kommunikationsstandards und digitale Plattformen dar, wodurch ein transparenter Nachweis der Herkunft und der Prozessschritte vorliegt.

Information and Management Systems for Product Customization Thorsten Blecker, Gerhard Friedrich, Bernd Kaluza, Nizar Abdelkafi, Gerold Kreutler, 2004-11-04

In today's competitive environment, manufacturing and service companies are intensifying their customization processes. Customization means companies must meet the challenge of providing individualized products and services without introducing high costs. Therefore, companies must address both customization and cost factors to gain a competitive

advantage While product customization is the manufacturing of products according to individual customer needs it does not involve any focus on the cost perspective Information and Management Systems for Product Customization will concentrate on both product customization and costs efficiency which is termed as mass customization Moreover mass customization with its multi dimensions is the new business paradigm challenging today s manufacturing companies *Research in Mass Customization and Personalization* Mitchell, Frank T. Piller, 2009-12-01 A growing heterogeneity of demand the advent of long tail markets exploding product complexities and the rise of creative consumers are challenging companies in all industries to find new strategies to address these trends Mass customization MC has emerged in the last decade as the premier strategy for companies in all branches of industry to profit from heterogeneity of demand and a broad scope of other customer demands The research and practical experience collected in this book presents the latest thinking on how to make mass customization work More than 50 authors from academia and management debate on what is viable now what did not work in the past and what lurks just below the radar in mass customization personalization and related fields Edited by two leading authorities in the field of mass customization both volumes of the book discuss among many other themes the latest research and insights on customization strategies product design for mass customization virtual models co design toolkits customization value measurement open source architecture customization communities and MC supply chains Through a number of detailed case studies prominent examples of mass customization are explained and evaluated in larger context and perspective *Customization 4.0* Stephan Hankammer, Kjeld Nielsen, Frank T. Piller, Günther Schuh, Ning Wang, 2018-06-20 This proceedings volume presents the latest research from the worldwide mass customization personalization MCP community bringing together new thoughts and results from various disciplines within the field The chapters are based on papers from the MCPC 2017 The book showcases research and practice from authors that see MCP as an opportunity to extend or even revolutionize current business models The current trends of Industrie 4 0 digital manufacturing and the rise of smart products allow for a fresh perspective on MCP Customization 4 0 The book places a new set of values in the centre of the debate a world with finite resources global population growth and exacerbating climate change needs smart thinking to engage the most effective capabilities and resources It discusses how Customization 4 0 fosters sustainable development and creates shared value for companies customers consumers and the society as a whole The chapters of this book are contributed by a wide range of specialists offering cutting edge research as well as insightful advances in industrial practice in key areas The MCPC 2017 has a strong focus on real life MCP applications and this proceedings volume reflects this MCP strategies aim to profit from the fact that people are different Their objective is to turn customer heterogeneities into opportunities hence addressing long tail business models The objective of MCP is to provide goods and services that best serve individual customers needs with near mass production efficiency This proceedings volume highlights the interdisciplinary work of thought leaders technology developers and researchers with corporate entrepreneurs putting these

strategies into practice Chapter 24 is open access under a CC BY 4.0 license via link [springer.com](https://www.springer.com)

Innovative Processes and Products for Mass Customization Thorsten Blecker, 2007

Moving into Mass Customization Claus Rautenstrauch, Ralph Seelmann-Eggebert, Klaus Turowski, 2002-07-09

Mass Customization leads the strategy of today's well succeeded companies. It indulges the customer with the so long yearned for product and/or service that exactly fits his desires and specifications. This book compiles a hand selected variety of testimonies from Mass Customization experts worldwide with different experiences both on an academic research basis as well as on practical case studies. This diversity makes it a compulsory guide to use in any enterprise throughout the world that wants to take its business into new and more ambitious dimensions. Furthermore its contents are structured in a way that will help everyone that wants to learn, teach or put into practice the concepts of Mass Customization.

Mass Customization Frank Thomas Piller, 2003

Mass Customization Strategies Klaus Moser, 2007

Mass customization is a business concept for every organization. Mass customization is not simply understood as a business strategy but also as a concept for supporting other business goals such as the operation of a mass or craft manufacturing business. This book presents seven different mass customization strategies and the competencies needed to successfully implement these strategies. The findings presented with this book and doctoral dissertation are derived from case study research. The book documents 14 mass customization case studies and presents a new form of case study research: the industry research group. Mass Customization Strategies is recommended for researchers in the field of mass customization and customer integration as well as for managers and consultants. The author Klaus Moser is a Project Leader at Boston Consulting Group (BCG) and a research affiliate of the TUM Research Centre for Mass Customization. Customer Integration Technische Universität München, Germany.

SAP MII Suman Mukherjee, Saptaparna Mukherjee (Das), 2017-07-19

Leverage the flexibility and power of SAP MII to integrate your business operations with your manufacturing processes. You'll explore important new features of the product and see how to apply best practices to connect all the stakeholders in your business. This book starts with an overview of SAP's manufacturing integration and intelligence application and explains why it is so important. You'll then see how it is applied in various manufacturing sectors. The biggest challenge in manufacturing industries is to reduce the manual work and human intervention so that the process becomes automatic. SAP MII explains how to bridge the gap between management and production and bring sound vital information to the shop floor in real time. With this book you'll see how to ensure existing manufacturing and information systems share a common interface for all users in your enterprise. What You'll Learn: Understand the functional aspects of SAP MII; Implement SAP MII in different Manufacturing sectors; Explore new technical features of SAP MII 12.x; Integrate scenarios with SAP MII; Discover practice guidelines. Who This Book is for: All levels of SAP manufacturing professionals.

Entwicklung einer Fallstudie für das Customizing von Organisationsstrukturen zur Einführung von SAP R/3 Ernst Schulten, 2009-12-23
