See No Evil Joel Pollak, 2016-07-25 Liberals take great pride in their supposed open mindedness Yet when it comes to hot button issues like radical Islam global warming and abortion open minded liberals go to great lengths to discredit and suppress the ideas of their opponents Breitbart senior editor Joel Pollak exposes the nineteen key ideas that today s liberals are desperate to suppress revealing the blatant hypocrisy of left wing leaders and pundits who preach tolerance but practice intolerance *Without Seeing the Dawn* Stevan Javellana, 1947 **The School at Ajmeri Gate** Azra Razzack, Atyab Siddiqui, 2022-08-30 This is a story of a school in the walled city of Old Delhi the Anglo Arabic Senior Secondary School The school has its origins in Madrasa Ghaziuddin established in 1692 Using archival data and personal accounts this book offers a fascinating insight into an institution of historic importance The Twilight of the Gothic? Joseph Crawford, 2014-05-15 This book explores the history of the paranormal romance genre from its origins in the revisionist horror fiction of the 1970s via its emergence as a minor sub genre of romantic fiction in the early 1990s to its contemporary expansion in recent years into an often controversial genre of mainstream fiction Tracing the genre from its roots in older Gothic fiction written by and for women it explores the interconnected histories of Gothic and romantic fiction from Ann Radcliffe and Jane Austen in the eighteenth century to Buffy Twilight True Blood and The Vampire Diaries in the present day In doing so it investigates the extent to which the post Twilight paranormal romance really does represent a break from older traditions of Gothic fiction and just what it is about the genre that has made it so extraordinarily divisive captivating millions of readers whilst simultaneously infuriating and repelling so many others No Globalization Without Representation Paul Adler, 2021-05-28 How consumer and environmental activists became significant players in U S and world politics Amid the mass protests of the 1960s another less heralded political force arose public interest progressivism Led by activists like Ralph Nader organizations of lawyers and experts worked inside the system They confronted corporate power and helped win major consumer and environmental protections By the late 1970s some public interest groups moved beyond U S borders to challenge multinational corporations This happened at the same time that neoliberalism a politics of empowerment for big business gained strength in the U S and around the world No Globalization Without Representation is the story of how consumer and environmental activists became significant players in U S and world politics at the twentieth century s close NGOs like Friends of the Earth and Public Citizen helped forge a progressive coalition that lobbied against the emerging neoliberal world order and in favor of what they called fair globalization From boycotting Nestl in the 1970s to lobbying against NAFTA to the Battle of Seattle protests against the World Trade Organization in the 1990s these groups have made a profound mark This book tells their stories while showing how public interest groups helped ensure that a version of liberalism willing to challenge corporate power did not vanish from U S politics Public interest groups believed that preserving liberalism at home meant confronting attempts to perpetuate conservative policies through global economic rules

No Globalization Without Representation also illuminates how professionalized organizations became such a critical part of liberal activism and how that has affected the course of U S politics to the present day **Word 2007** Chris Grover,2007

Ferris,Kemal Kirisci,2016-04-05 The massive dimensions of Syria s refugee crisis and the search for solutions The civil war in Syria has forced some 10 million people more than half the country s population from their homes and communities creating one of the largest human displacements since the end of World War II Daily headlines testify to their plight both within Syria and in the countries to which they have fled The Consequences of Chaos looks beyond the ever increasing numbers of Syria s uprooted to consider the long term economic political and social implications of this massive movement of people

Neighboring countries hosting thousands or even millions of refugees Western governments called upon to provide financial assistance and even new homes for the refugees regional and international organizations struggling to cope with the demands for food and shelter all have found the Syria crisis to be overwhelming in its challenges And the challenges of finding solutions for those displaced by the conflict are likely to continue for years perhaps even for decades The Syrian displacement crisis raises fundamental questions about the relationship between action to resolve conflicts and humanitarian aid to assist the victims and demonstrates the limits of humanitarian response even on a massive scale to resolve political crises The increasingly protracted nature of the crisis also raises the need for the international community to think beyond just relief assistance and adopt developmental policies to help refugees become productive members of their host communities

The Design of Competition Law Institutions Eleanor M Fox, Michael J Trebilcock, 2013 Significant power is exercised through webs created between different systems of national law influenced by governments but also by transnational actors such as global corporations and transnational NGOs and often with an overlay of formal international law or of substantial influence from international institutions Studying the procedures used by competition institutions dealing with specific cases concerning monopolies mergers anti competitive practices this volume uses a template to study practices of many national institutions and the EU and examines the interactions among these and with prescriptions of influential international bodies Together these form a web with existing procedural rules and practices in a particular institution criticized and alternatives championed and transmitted partly by prescription and partly by arguments of major global law firms of global corporations and of consultants dispatched by the ICN and other agencies This whole process examined for the first time in this book is the real global governance of the procedural law and practices of market supervision under competition rules Delving deeply into their jurisdictions and internationally the contributors illuminate the inner workings of the systems and expose the procedure process and performance norms embedded within Case studies are drawn from Australia Canada Chile China Japan South Africa the USA and the EU as well as four leading international institutions involved in antitrust the World Trade Organization the Organization for Economic Cooperation and Development the United Nations Conference on Trade and Development and the International Competition Network The results reveal a convergence of these norms across the very different systems a procedural norms convergence that offers a necessary counterpart to studies on substantive rule convergence These results provide benchmarks for the field suggest possibilities for future development and offer lessons for all interested in competition law and global governance Vishvakarma 2016

The Transformation of Strategic Affairs Lawrence Freedman, 2017-07-20 This book analyzes the strategic implications of the shift in focus for the US Armed Forces from regular to irregular war Lawrence Freedman closely examines the difficulty the US Armed Forces face in shifting their focus from preparing for regular wars in which combat is separated from civil society to irregular wars in which combat is integrated

AI Fairness and Beyond Chris Reed, 2024-08-08 This book proposes a regulatory system for ensuring that AI makes fair decisions No one wants to be the subject of an unfair decision made by an AI and fairness is so important to society that we are likely to want to regulate to demand it But how This book attempts to answer that question The aim of regulation must be for an AI's decisions to match the human conception of fairness To understand what that is the book proposes a holistic understanding of fairness which tells us what regulation must try to achieve However regulation is not an abstract activity it regulates how humans behave and the humans in question are those who develop and use AI for decision making Thus the book investigates how those humans are attempting to achieve AI fairness It finds that there is a serious mismatch between how technologists conceptualise fairness compared to other humans How can AI regulation bridge this gap Traditional models of regulation cannot solve this problem Fairness is too nuanced too contextual and is ultimately a human emotional response Instead the book proposes to place the responsibility on the AI community to explain and justify their efforts to achieve fairness basing regulatory and legal responses on how well that explanation deals with the risks that particular AI presents and whether the AI operates in accordance with the explanation in use The book concludes by examining how far this regulatory model might be useful for some of the other social problems which AI generates An original and significant contribution to the literature on AI regulation this book is a must read for those working in the areas of law regulation and technology

Political Conflict in Pakistan Mohammad Waseem, 2022-04-01 This book is a major reinterpretation of politics in Pakistan. Its focus is conflict among groups, communities, classes, ideologies, and institutions which has shaped the country's political dynamics. Mohammad Waseem critically examines the theory surrounding the millennium-long conflict between Hindus and Muslims as separate nations who practiced mingled faiths and the Hindu-Muslim and Sikh renaissances that created a twentieth-century clash of communities and led to partition. *Political Conflict in Pakistan* addresses multiple clashes between the high culture as a mission to transform society and the low culture of the land and the people between those committed to the establishment's institutional constitutional framework and those seeking to dismantle the colonial state between the corrupt and those seeking to hold them to account between the political class and the middle class and between civil and military power. The author exposes how the ruling elite centralised power through the militarisation and judicialization of politics, rendering the federalist arrangement an empty shell and thus grossly alienating the provinces. He sets all this within the contexts of education and media as breeders of conflict, the difficulties of establishing an anti-terrorist regime and the state's pragmatic attempts at conflict resolution by seeking to keep the outsiders inside. This is a wide-ranging account of a country of contestations.

Property and Sovereignty James Charles Smith, 2016-04-15 This book explores the relationships between property and the concept of sovereignty from a number of different perspectives. It distinguishes between the dual meaning of sovereignty in property discourse: political sovereignty and owner sovereignty. The contributors discuss the nature of sovereignty in both senses, applying it to a wide range of topics such as the evolution of property rights in fragile and conflict-affected nation states and notions of sovereign property in new worlds. A section on the Arts illuminates the relationships between property, sovereignty, and culture, and a further section investigates regulatory property and governmental control over resources. The book concludes with an exploration of sovereign shaping of private property entitlements to achieve instrumental ends. This interesting collection will be valuable to those in the fields of legal philosophy, property theory, international and comparative law, and political sociology.
