Graphic Design in Germany Jeremy Aynsley, 2000 A sweeping and comprehensive catalogue of the graphic arts in Germany from 1890 through World War II this handsome oversized volume also deals with the methodology of art as a medium of persuasion Design Issues, 2014 **Design, Vienna, 1890s to 1930s** Joann Skrypzak, Barbara Copeland Buenger, 2003 Barbara Buenger traces the development of Viennese modernism from turn of the century Jugendstil as Art Nouveau was known in German speaking countries to early twentieth century Expressionism and interwar Art Deco This exhibition catalogue features 103 fine and decorative art works produced by the Vienna Secession and Wiener Werksttte movements between the 1890s and 1930s The fully illustrated catalog features textiles furniture ceramics paintings and prints books metalwork glass and a variety of other objects from a private midwestern collection Distributed for the Chazen Museum of Art University of Wisconsin Madison **Women, Periodicals and Print Culture in Britain, 1890s-1920s** Faith Binckes, 2019-04-10 New perspectives on women s contributions to periodical culture in the era of modernism This collection highlights the contributions of women writers editors and critics to periodical culture in the late nineteenth and early twentieth centuries It explores women s role in shaping conversations about modernism and modernity across varied aesthetic and ideological registers and foregrounds how such participation was shaped by a wide range of periodical genres The essays focus on well known publications and introduce those as yet obscure and understudied including middlebrow and popular magazines movement based radical papers avant garde titles and classic Little Magazines Examining neglected figures and shining new light on familiar ones the collection enriches our understanding of the role women played in the print culture of this transformative period Key Features Helps recover neglected women writers and cast new light on canonical ones Highlights the geographical diversity of modern British print culture Emphasises the interdisciplinary nature of modernism including essays on modernist dance music cinema drama and architecture Includes a section on social movement periodicals **Jeanne Mammen** Camilla Smith, 2022-10-20 Jeanne Mammen s watercolour images of the gender bending new woman and her candid portrayals of Berlin s thriving nightlife appeared in some of the most influential magazines of the Weimar Republic and are still considered characteristic of much of the glitter of that era This book charts how once the Nazis came into power Mammen instead created degenerate paintings and collages translated prohibited French literature and sculpted in clay and plaster all while hidden away in her tiny studio apartment in the heart of Berlin s fashionable west end What was it like as a woman artist to produce modern art in Nazi Germany Can artworks that were never exhibited in public still make valid claims to protest Camilla Smith examines a wide range of Mammen s dissenting artworks ranging from those created in solitude during inner emigration to her collaboration with artist cabarets after the Second World War Smith s engaging analysis compares Mammen s popular Weimar work to her artistic activities under the radar after 1933 in order to fundamentally rethink the moral complexities of inner emigration and its visual culture The

examination of Mammen's life and work demonstrates the crucial role women artists played as both markers and agents of German modernity but the double marginalisation they have nonetheless encountered as inner migrants in recent history. It will be of interest to students of German studies, art history, literature, history, gender studies and cultural studies.

The Annual American Catalogue 1886-1900, 1891 **English Modernism, National Identity and the Germans, 1890-1950** Dr Petra Rau, 2013-04-28 This is the first systematic study to trace the way representations of Germanness in modernist British literature from 1890 to 1950 contributed to the development of English identity. Petra Rau examines the shift in attitudes towards Germany and Germans from suspicious competitiveness in the late Victorian period to the aggressive hostility of the First World War and the curious inconsistencies of the 1930s and 1940s. These shifts were no simple response to political change but the result of an anxious negotiation of modernity in which specific aspects of Englishness were projected onto representations of Germans and Germany in English literature and culture. While this incisive argument clarifies and deepens our understanding of cultural and national politics in the first half of the twentieth century, it also complicates current debates surrounding race and otherness in cultural studies. Authors discussed include major figures such as Conrad, Woolf, Lawrence, Ford, Forster and Bowen as well as popular or less familiar writers such as Saki, Graham Greene and Stevie Smith. Accessibly written and convincingly argued, Rau's study will not only be an important book for scholars but will serve as a valuable guide to undergraduates working in modernism, literary history and European cultural relations.
