**Experimental Research Methods in Language Learning** Aek Phakiti, 2014-12-18 Language learning research aims to describe and fully explain how and why language learning takes place but can fall short of its stated purpose. Given that research in language acquisition yields practical pedagogical implications, it is crucial that it is rigorous and accurate. This book offers a quantitative research methodology that relies on statistical analysis in order to make inferences and conclusions about language learning. Experimental research aims to understand differences between or within groups of learners under manipulated environments.
