Transformational Leadership in Nursing
 Elaine Sorensen Marshall, 2010-09-01. 2011 AJN Book of the Year Winner in Leadership and Management. The ultimate goal for Doctor of Nursing Practice (DNP) leaders is to develop skills that will support their ability to lead effectively through complex challenges such as working within the constraints of tight budgets, initiating health care policy change to eliminate health disparities, and improving health care outcomes at all levels of care. This text is an invaluable instructional guide for nursing graduate students who are developing the skills needed to fulfill this new and emerging role of clinical leadership. With this book, nurses can develop leadership skills that will ultimately transform health care practice by incorporating innovative professional models of care. It provides critical information and practical tools to enhance leadership, drawing from the works of experts in business and health care leadership. This book is an important resource for DNP students, nurse practitioners, and current clinical leaders dealing with the challenges of health care for the next generation. Key topics: Cultivating the characteristics of a transformational leader (charisma, innovation, inspiration, intellect, and more); Developing the role of the DNP within complex organizational systems; Incorporating new care delivery practice and management models through leadership; Navigating power, politics, and policy; Building the team; Understanding economics and finance; and more.

Finding Funding
 Ernest W. Brewer, 2001-01-24. The materials collected, developed, and compiled in this volume are mostly related to grant proposal development for education, but the push for uniformity in grants among the various federal agencies means that the materials have wider application. Some of the ideas and tips may be of general interest and value to a grantwriter; some ideas about project management should benefit anyone operating a project. The book is divided into three major parts and several additional supporting sections. Part I discusses the planning and some of the major tools of the trade needed to get started in the grant project field and to use the Internet to access funding resources. Part II covers some important steps in developing a successful grant application. Part III discusses both closing out a project annually and the often difficult but realistic element of terminating the project at the end of external support. This handbook includes problem definition, analysis of need, goals and objectives, activities, some management details, timelines, personnel, budget, reports, evaluation, and dissemination of results. The work is about exploring, writing, implementing, and terminating an idea as a strong proposal and as an operating project. Appendixes include list of abbreviations, state points of contact, and a glossary. Contains 51 references. DFR.
