The authors not only tell us how to effectively collaborate and co-teach to benefit English learners; they actually show us what each component of the collaborative instructional cycle looks and feels like, complemented by innovative video and web content. DIANE STAHR FENNER, Coauthor of *Unlocking ELs' Potential* and President of SupportEd. Because teacher collaboration isn't an option, it's a MUST. That's why you'll want to put *Co-Teaching for English Learners* at the top of your reading list. Step by step, EL authorities Maria Dove and Andrea Honigsfeld walk you through the entire collaborative instruction cycle along with seven potential classroom configurations from which to choose. Whether you're new to co-teaching or just see room for improvement in your practice, this practical handbook delivers every technique and tool you need to make the most of your collaboration, including video footage of co-teaching in action. Inside you'll find in-depth profiles of the seven models with detailed descriptions and analyses, a review of advantages and challenges of each model's implementation, clear explanations of each teacher's role along with self-assessment tools, tried and true strategies for the entire instructional cycle: co-planning, co-instruction, co-assessment, and reflection. Real-life accounts from co-teaching veterans. Long gone are the days when our ELs are taught in isolation, and rightfully so. Read *Co-Teaching for English Learners*, implement its strategies, and soon enough you too can set up a learning environment in which all students thrive.

[Religious Education as a Dialogue with Difference](#) Kevin O'Grady, 2018-12-21 *Religious Education as a Dialogue with Difference* addresses current issues over the study of religion in publicly maintained schools. Are liberal inclusive approaches to the study of religion suited to the aims of education in a democracy? Do liberal democratic aims offer the right framework for the study of religion? By presenting research on English secondary school pupils' motivation in religious education, this volume argues that religious education is best understood as a democratic dialogue with difference. The book offers empirical evidence for this claim and it demonstrates how learners gain in religious literacy both through the exercise of democratic citizenship in the classroom and towards the goal of life-long democratic citizenship.
