*Rousseau and Revolution* Will Durant, Ariel Durant, 2011-06-07 Winner of the Pulitzer Prize A history of civilization in France England and Germany from 1756 and in the remainder Europe from 1715 to 1789 Die Religion von morgen Ken Wilber, 2024-06-12 Eine provokante Untersuchung darüber wie die großen religiösen Traditionen in der heutigen Zeit relevant bleiben können indem sie die wissenschaftlichen Wahrheiten über die menschliche Natur des letzten Jahrhunderts einbeziehen Allen großen religiösen Traditionen liegt ein einziges Ziel zugrunde das Erwachen zu der erstaunlichen Realität der wahren Natur von uns selbst und des Universums Doch durch die jahrhundertelange kulturelle Konzentration auf Mythen und Rituale ist diese zentrale Erkenntnis in Vergessenheit geraten Hier zeigt Ken Wilber einen Weg auf wie eine Religion der Zukunft aussehen kann die die Entwicklung der Menschheit in allen Bereichen anerkennt und gleichzeitig der ursprünglichen spirituellen Vision treu bleibt Damit die Traditionen für moderne Männer und Frauen attraktiv sind so Wilber müssen sie die außerordentliche Anzahl wissenschaftlicher Erkenntnisse über die menschliche Natur einbeziehen die in den letzten hundert Jahren gewonnen wurden zum Beispiel über den Geist und das Gehirn die Emotionen und die Entwicklung des Bewusstseins und die die Alten nicht kannten und deshalb auch nicht in ihre meditativen Systeme integrieren konnten The Ideology of Democratism Emily B. Finley, 2022-08-02 A unique reinterpretation of democracy that shows how history's most vocal champions of democracy from Jean Jacques Rousseau and Thomas Jefferson to John Rawls have contributed to a pervasive anti democratic ideology effectively redefining democracy to mean rule by the elites The rise of global populism reveals a tension in Western thinking about democracy Warnings about the populist threat to democracy and authoritarian populism are now commonplace However as Emily B Finley argues in *The Ideology of Democratism* dismissing populism as anti democratic is highly problematic In effect such arguments essentially reject the actual popular will in favor of a purely theoretical and abstract will of the people She contends that the West has conceptualized democracy not just its populist doppelgänger as an ideal that has all of the features of a thoroughgoing political ideology which she labels democratism As she shows this understanding of democracy which constitutes an entire view of life and politics has been and remains a powerful influence in America and leading Western European nations and their colonial satellites Through a careful analysis of several of history's most vocal champions of democracy including Jean Jacques Rousseau Thomas Jefferson Woodrow Wilson John Rawls and American neoconservatives and liberal internationalists Finley identifies an interpretation of democracy that effectively transforms the meaning of rule by the people into nearly its opposite Making use of democratic language and claiming to speak for the people many politicians philosophers academics and others advocate a more complete and genuine form of democracy that in practice has little regard for the actual popular will A heterodox argument that challenges the prevailing consensus of what democracy is and what it is supposed to be *The Ideology of Democratism* offers a timely and comprehensive assessment of the features and thrust of this powerful new view of democracy that has enchanted

the West     *Rousseau and Revolution* Will Durant, Ariel Durant, 1967     **The Global Bioethics of Artificial Intelligence and Human Rights** Dominique J. Monlezun, 2020-07-22 Human annihilation has never been so easy Artificial intelligence guided genetic engineered nanotechnology and robotics AI GNR are widely recognized as our most transformative technological revolution ever yet we do not even have a common moral language to unite our pluralistic world to prevent an AI apocalypse should this revolution explode out of our control This book is the first known comprehensive global bioethical analysis of AI and AI GNR by defining the Thomistic Aristotelian personalist foundation of the rights and duties based social contract framework of the United Nations and then applying it to AI As such it creates a compelling approach which will appeal to scientists health professionals policy makers politicians students and anyone interested in our shared survival around shared solutions     *The Age of Voltaire* Will Durant, Ariel Durant, 2011-06-07 The Story of Civilization Volume IX A history of civilization in Western Europe from 1715 to 1756 with special emphasis on the conflict between religion and philosophy This is the ninth volume of the classic Pulitzer Prize winning series     **Goethe-Bibliographie 1950 - 1990** Siegfried Seifert, 2011-12-22 Keine ausf hrliche Beschreibung f r Goethe Bibliographie 1950 1990 verf gbar     **The Failure of Leadership in Africa's Development** Ike Okonta, 2020-02-13 The Failure of Leadership in Africa s Development examines the dominant scholarly theories about the cause of Africa s underdevelopment and argues that none of the traditionally invoked causes an alleged black racial inferiority the colonial and neo colonial expropriation of Africa purported natural defects in Africa s geography is plausible as the explanation of the main cause of the continent s underdevelopment Rather the book argues that the chief cause of the continent s lag is the failure of leadership of Africa s ruling classes This failure of leadership the book shows is most evident in the historically traceable indifference of a long succession of Africa s ruling classes to the scientific and technological advances that were emerging from Europe and Asia during the most critical periods of Africa s history It was this indifference the book argues that set the stage for the subsequent conquest expropriation and technological stagnation of Africa The book recommends a blueprint for the continent s future development     Mythology for the Microcosm A. Brian Lasater, 2005-12 About my book Although there is nothing new under the sun it is always useful to reevaluate old ideas and principles and express them in new and original ways There are many books on the Kabala but based on what I have seen and read there is room for a comprehensive approach Many authors leave out fundamental princi ples altogether like the authors who don t even mention the celestial bodies and the Zodiac On the other hand scholars of mythology generally do not even refer to astrology and the Kabala and apparently do not recognise that the celestial bodies were the principle gods of the ancient pantheon My approach has been to briefly discuss some of the fundamental elements of the old theologies and relate them to astrology and the Kabala from a modern perspective Thus I have laid an essential foundation for the Kabala and astrology and placed them the context of Greek and Roman mythology Since I have adopted a broad perspective the reader has a basis for pursuing these subjects in a variety of ways I have not

seen any other book that relates astrology and the Kabala to Greek and Roman mythology the Bible and then relates these to Mesopotamian and Egyptian mythology The ancient theologies have many fundamental elements in common and these form key parts of the foundation of astrology and the Kabala In addition I have given a concise discussion of the Four Alchemical Elements the Signs of the Zodiac and the Celestial Bodies and placed them in a Kabalistic framework To truly comprehend the Kabala and Astrology it must be remembered that it is one complete whole and it is broken down to make analysis practicable Therefore I have discussed Creation and the Ten Sephiroth the trinity in some of its forms as a sacred elements in Creation and in Man and Woman the Four Elements and the Zodiac Then from a mythological and theological perspective I have looked briefly at Mesopotamia and Egyptian As a counterweight to our cynical age I have looked at the Golden Age of Atlantis and the mythological heroes and heroines of the primordial past serve as exemplars and encourage us to strive to attain some of Occidental Civilization's highest ideals On the other hand Atlantis is a warning the misuse of knowledge and power leads to the destruction of civilization Further from a theological and mythical perspective the Sephiroth were divine instruments used in Creation On a more mundane level the Kabala and astrology are a means to know ourselves and obey the injunction Know Thyself that used to be inscribed on Apollo's temple at Delphi This book is based on the work of the ancients whose writing is superb The quotes in English from the ancients are the best part of the book and it is a pleasure to read
