Sartre and Existentialism William L. McBride, 2000-02-01 Captures the full range of existentialism For the quarter century following World War II existentialism was a pervasive current of thought worldwide not only in philosophy but also in literature and in much of psychological and social theory Jean Paul Sartre was the towering controversial figure who gave impetus to the movement and with whom existentialism was identified Sartre's philosophy which evolved considerably over more than three decades continues to generate attention today Scholarship on all of Sartre's writings The collection begins with contemporary articles that recapture the atmosphere in which the idea of existentialism crystallized It presents important comparative and background studies that establish connections between Sartre and existentialist writers who preceded him and offers some of the best scholarship on his writings including posthumous publications The articles also connect Sartre's philosophy with the work of his best known French contemporaries and associates notably Camus de Beauvoir and Merleau Ponty and with major post existentialist intellectual currents Interdisciplinary and balanced coverage While presenting Sartre as a philosopher as he saw himself this interdisciplinary collection of articles includes both comprehensive overviews of his philosophy and in depth analyses of it some highly sympathetic and some highly critical Because of its interdisciplinary character and its chronological range over more than half a century this series is an exceptionally valuable resource for scholars in the humanities and social sciences A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on existentialism and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have

to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Comprehensive contemporary to classic Not only does the collection offer the best of contemporary articles but it also includes important classics and seminal pieces Thus a student can view in one place the historical evolution and advances in existentialist thought as well as be informed about the latest developments Authoritative introductions A distinguished authority in the field the series editor has put together a balanced and well thought out selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of the subject Durable and permanent Unlike journals which cannot withstand the rigors of constant use the hardbound books in this series have sturdy library style bindings and are printed on acid free paper that has a guaranteed shelf life of 300 years Consequently the set will still be in excellent condition when the original periodicals are long gone An affordable research resource Even if a library has all of the journals represented in the series this inexpensive core collection of articles in permanent form saves wear and tear on the fragile journals themselves The series puts into the hands of undergraduates a selection of the best writings on existentialism that is convenient comprehensive multidisciplinary and ideal as a starting point for research The many articles introduce students in a user friendly way to a range of important opinions and intellectual discourse that is likely to whet their appetite for pursuing the subject further on their own Individual volumes available Vol 1 The Development and Meaning of Twentieth Century Existentialism 400 pages 0 8153 2491 X Vol 2 Existentialist Background Kierkegaard Dostoevsky Nietzsche Jaspers Heidegger 0 8153 2492 8 Vol 3 Sartre's Life Times and Vision Du Monde 392 pages 0 8153 2493 6 Vol 4 Existentialist Ontology and Human Consciousness 392 pages 0 8153 2494 4 Vol 5 Existentialist Ethics 400 pages 0 8153 2495 2 Vol 6 Existentialist Politics and Political Theory 376 pages 0 8153 2496 0 Vol 7 Existentialist Literature and Aesthetics 376 pages 0 8153 2497 9 Vol 8 Sartre's French Contemporaries and Enduring Influences 392 pages 0 8153 2498 7
