Rob Sewell, Alan Woods, 2015 In this epoch of instability crisis war and ever growing inequality Marxism is becoming an increasingly attractive proposition to millions of workers and young people around the world The old mole of revolution to use Karl Marx's own phrase is burrowing deep into the foundations of society And yet we are repeatedly told that Marxism is either irrelevant or out dated or even dead Yet if that were true why are so many books and articles churned out year on year attacking Marxism Clearly the powers that be are rattled or indeed frightened by these dead ideas So what is this set of ideas that frightens them so much Marxism or scientific socialism is the name given to the body of ideas first worked out by Karl Marx and Friedrich Engels more than 150 years ago In their totality these ideas provide a fully worked out theoretical basis for the struggle of the working class to attain a higher form of human society socialism This book is aimed specifically at newcomers to Marxism A bestseller now in its second edition it comprises introductory pieces on the three component parts of Marxist theory corresponding broadly to philosophy social history and economics dialectical materialism historical materialism and Marxist economics Complementing these introductions are key extracts from some of the great works of Marxism written by its most outstanding figures Marx Engels Lenin and Trotsky *In Defence of Lenin* Rob Sewell, Alan Woods, 2024-01-11 John Reed the author of *Ten Days that Shook the World* once said that Lenin was the most loved and the most hated person alive He was loved by tens of millions who wanted to change society but hated by the ruling class and their apologists As the leader of the Russian Revolution Lenin was a man who changed the world A convinced Marxist he created the Bolshevik Party the most revolutionary party in history Lenin translated the ideas of Marxism into reality It is now one hundred years since his death The bourgeois historians continue to slander him and his ideas The task of this book is to explain his real life and ideas and to draw out the significance of Lenin Given the ongoing capitalist crisis his ideas are gaining an increasingly wide echo In so many ways Lenin is more relevant today than ever before Over two volumes this book traces Lenin's life and explains his ideas drawing on the colossal heritage of what he actually wrote and did This book also features an appendix of Krupskaya's writings on Lenin a chronology and over 250 images
