as Incubators of Innovation Rebecca A. Corbin, Ron Thomas, 2023-07-03 While community colleges have traditionally focused on providing students with opportunities to gain credentials for employment the increasingly important question is Are they preparing students for the looming dynamic disruptive and entrepreneurial environments ahead This book addresses the urgent need for community colleges to prioritize entrepreneurship education both to remain relevant in a changing economy and to give graduate students the flexible and interdisciplinary mindsets needed for the future of society It argues that entrepreneurial education should be offered broadly to a wide range of students and across all disciplines

defines the key constructs for achieving this objective and describes how to create entrepreneurial learning environments The expert contributors with the support of the National Association for Community College Entrepreneurship NACCE start from the premise that community colleges are uniquely positioned to lead entrepreneurial initiatives through both internally generated curriculum design and through collaboration with the local entrepreneurial community to build bridges between the classroom to the community which in turn can offer models of implementation and constitute a network or support system for students Community colleges can become incubators of innovation a magnet for talent and provide the impetus for development strategies that their communities have not begun to realize As the chapters make clear developing an entrepreneurial program itself requires an entrepreneurial mindset that transcends any lack of resources requiring a spirit of imagination and resourcefulness This book takes the reader on a journey through the steps needed to build a meaningful relevant and sustainable entrepreneurship program covering program development curriculum design appropriate pedagogical approaches and community engagement

The People Versus Socialism Stephen A. Smoot, 2020-07-14. After the fall of the Soviet Union and its global empire, most observers assumed that the seventy-year argument that socialism was superior to capitalism was over. Socialism in its various forms—Communism, Maoism, National Socialism, and more—had left such a legacy of tyranny, war, mass murder, and human misery that few could imagine a world where young people would once again embrace the discredited ideas of Marx and his heirs. And yet here we are in twenty-first century America. Proponents of Democratic Socialism find themselves inexplicably darlings of the media and political classes. *The People Versus Socialism* is a powerful historical corrective, a reminder to those who have forgotten or who never learned the enormous toll socialism laid upon humanity throughout the twentieth century. This dangerous economic and social system left untold millions dead, billions mired in war and poverty, and the entire world under constant threat from ideologically driven tyrants and dictators. The indictment is clear, and the implications of ignoring history are frightening.

Reflective Reading and the Power of Narrative Karyn Sproles, 2018-07-11. *Reflective Reading and the Power of Narrative: Producing the Reader* is an interdisciplinary exploration into the profound power of narratives to create and recreate how we imagine ourselves. It posits that the process of producing a text also produces the reader. Written from the perspective of a psychoanalytic feminist, Sproles considers a wide array of examples from literature, popular culture, and her own experiences to illustrate what she calls reflective reading, a metacognitive reading practice that recognizes the workings of the unconscious to push the reader toward a potentially transformational engagement with narrative. This may manifest as epiphany, recovery from loss, or resolution of repressed trauma. Each chapter draws on examples of characters

and authors who model a reflective reading process from Jane Austen and Virginia Woolf to Johnny Cash and Alison Bechdel By reclaiming the role of the unconscious Karyn Sproles reinvigorates the theoretical work begun by reader response criticism and develops a deep understanding of identification and transference as an integral part of the reading process For students and researchers of cultural studies psychoanalysis gender studies and feminist literature and theory Reflective Reading and the Power of Narrative offers innovative and accessible ideas on the relationship between reader and text The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
