## Meet the Author

### Aldous Huxley 1894–1963

In both his fiction and nonfiction, Aldous Huxley offered brilliant satiric commentary on political, social, and cultural trends. He is best known for his novel *Brave New World* (1932), a chilling work about a false utopia populated by mass-produced, genetically engineered people. The novel is considered a classic science fiction work of the 20th century.

**Loss of Vision** Aldous Huxley was born in Surrey, England, into a family of gifted intellectuals that included scientists, educators, and writers. As a student at Eton College, Huxley contracted keratitis, an eye disease that resulted in near blindness. He had intended to pursue a career in science or medicine, but he abandoned that ambition because of his illness. Learning Braille to continue his education, he studied English literature at Oxford University, where his sight showed signs of slight improvement. He was awarded an honors degree in 1916, the same year he published his first book, a collection of poetry.

**Literary Rebel** After working as a teacher and a journalist, Huxley concentrated on his own writing, moving away from poetry to fiction and essays. The witty skepticism of his first two novels, published in the

1920s, established his reputation and also brought him a certain popularity as a rebel. During the 1930s, Huxley's writing focused on political and cultural trends.

**West Meets East** In 1937, Huxley settled in southern California, where both the climate and new medical treatments improved his vision. About the time he emigrated, he became increasingly concerned with the lack of spiritual focus in contemporary life, noting, "For too long Europeans and Americans have believed in nothing but the values arising in a mechanized, commercialized, urbanized way of life." He began to study and write about Hinduism, Buddhism, and Christian mysticism.

Although Huxley had never intended to make the United States his permanent home, he remained there for the rest of his life, finding work in Hollywood as a screenwriter and continuing to produce novels, essays, literary criticism, and philosophical writings. Toward the end of his life, Huxley the social critic remarked, "It is a bit embarrassing to have been concerned with the human problem all one's life and find at the end that one has no more to offer by way of advice than 'Try to be a little kinder.'"
