**Measuring History** S. G. Grant, 2009-03-01 Measuring History complements the cases presented in Wise Social Studies Practices Yeager Davis 2005 Yeager and Davis highlight the rich and ambitious teaching that can occur in the broad context of state level testing In this book the chapter authors and I bring the particular state history tests more to the fore and examine how teachers are responding to them At the heart of Measuring History are cases of classroom teachers in seven states Florida Kentucky Michigan New York Texas Mississippi and Virginia where new social studies standards and new and generally high stakes state level history tests are prominent In these chapters the authors describe and analyze the state s testing efforts and how those efforts are being interpreted in the context of classroom practice The results both support and challenge prevailing views on the efficacy of testing as a vehicle for educational reform Catherine Horn University of Houston and I lay the groundwork for the case studies through a set of introductory chapters that examine the current environment the research literature and the technical qualities of history tests

*Teaching History with Big Ideas* S. G. Grant, Jill M. Gradwell, 2010-07-16 In the case studies that make up the bulk of this book middle and high school history teachers describe the decisions and plans and the problems and possibilities they encountered as they ratcheted up their instruction through the use of big ideas Framing a teaching unit around a question such as Why don t we know anything about Africa offers both teacher and students opportunities to explore historical actors ideas and events in ways both rich and engaging Such an approach exemplifies the construct of ambitious teaching whereby teachers demonstrate their ability to marry their deep knowledge of subject matter students and the school context in ways that fundamentally challenge the claim that history is boring

for using rubrics and peer grading to evaluate students responses Connections to the informational reading standards of the Common Core State Standards for English Language Arts for grades 3 12 and of the Common Core State Standards for Literacy in History Social Studies Science and Technical Subjects

**Wise Social Studies in an Age of High-Stakes Testing** Elizabeth Anne Yeager, O. L. Davis, 2005-08-01 The chapters in this volume illustrate how teachers are bringing creativity higher order thinking and meaningful learning activities into particular school settings despite pressures of standards and testing We chose the word wise for the title of this book and we use it frequently to describe the pedagogical practices we have identified The words powerful and ambitious are used as well The larger point as Keith C Barton makes in his chapter is that there is no necessary connection between content standards and high stakes tests on the one hand and lowlevel rote instruction on the other He reminds us as Thornton 1991 and Wiggins 1987 previously have argued that teachers play a crucial role in mediating educational policy and their intentions and interpretations have at least as much influence on classroom practice as does the content of standards and highstakes tests Barton also asserts that this makes it all the more crucial to identify the wisdom of practice that enables teachers to engage students in powerful educational experiences

**Social Studies for the Twenty-First Century** Jack Zevin, 2013-08-21 Social Studies for the Twenty First Century Third Edition weaves theory curriculum methods and assessment into a comprehensive model to guide middle and secondary teachers in setting objectives planning lessons units and courses choosing classroom strategies and constructing tests for some of the field s most popular and enduring programs It offers practical interesting exciting ways to teach social studies and a multitude of instructional and professional resources for teachers The text includes separate chapters on teaching each of the major areas of the social studies curriculum Its reflective and integrative framework emphasizes building imagination insight and critical thinking into everyday classrooms encourages problem solving attitudes and behavior and provokes analysis reflection and debate Throughout the text all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic factual reflective analytical and affective judgmental components These three components are seen as supporting one another building the groundwork for taking stands on issues past and present At the center is the author s belief that the heart and soul of social studies instruction perhaps all teaching lies in stimulating the production of ideas looking at knowledge from others viewpoints and formulating for oneself a set of goals values and beliefs that can be explained and justified in open discussion New in the Third Edition Summaries of recent research particularly in history education that have been published since the last edition Increased attention to social studies standards as well as those for civics economics and history An enriched view of teaching history and social studies with a wide array of sources ranging from material objects through primary sources on to art music and literature Tightening of the text to make it shorter and more pointed including a few provocative new ideas More and better organized ideas for classroom group and individual activities and cooperative learning Expanded appendices on

instructional resources include the rapidly growing use of websites New visuals that are better integrated into the text and which teachers can use in their classrooms as lessons in visual literacy and Continued efforts to inject a bit of humor and self criticism into a field of education most students view as a sizeable trunk of dead and deadly facts Social Studies for the Twenty First Century Third Edition is a primary text for secondary and middle social studies methods courses New Directions in Assessing Historical Thinking Kadriye Ercikan,Peter Seixas,2015-02-20 New technologies have radically transformed our relationship to information in general and to little bits of information in particular The assessment of history learning which for a century has valued those little bits as the centerpiece of its practice now faces not only an unprecedented glut but a disconnect with what is valued in history education More complex processes historical thinking historical consciousness or historical sense making demand more complex assessments At the same time advances in scholarship on assessment open up new possibilities For this volume Kadriye Ercikan and Peter Seixas have assembled an international array of experts who have collectively moved the fields of history education and assessment forward Their various approaches negotiate the sometimes conflicting demands of theoretical sophistication empirically demonstrated validity and practical efficiency Key issues include articulating the cognitive goals of history education the relationship between content and procedural knowledge the impact of students language literacy on history assessments and methods of validation in both large scale and classroom assessments New Directions in Assessing Historical Thinking is a critical research oriented resource that will advance the conceptualization design and validation of the next generation of history assessments *Best Practices in Social Studies Assessment* Mark Percy,2017-03-01 The importance of social studies assessment is beyond question The National Council of the Social Studies C3 Framework recognizes the importance of high quality assessments its major objective a deep understanding of the sociocultural world has as its underpinning the idea that students must be able to investigate the world and that teachers much be able to assess their understanding of it However there is a comparative dearth of research that focuses on effective social studies assessment particularly with regard to the impact of teacher practice on the development of best practices Such research is vital to moving social studies away from an emphasis on testing and more towards using assessment as a means of educating our students In Best Practices of Social Studies Assessment we focus on an essential question what is an effective assessment Helping teachers develop practical creative curriculum appropriate strategies is essential especially in an era in which teachers are faced with the dilemma of creating inquiry based assessments in the midst of preexisting regimes of standardized summative assessments In this volume research conducted between university professors and working teachers is described focusing on innovative assessment practices These practices include role playing activities depicting historical events Socratic seminars revolving around public policy issues collaborative student projects on a wide range of social inquiries including the implementation of UN programs and the promotion of critical thinking and writing skills on subjects as diverse as school violence and the

impact of imperialism These adaptive assessments highlight the essential role of the teacher in creating assessments that blend higher order critical thinking complex content knowledge and an understanding of their own students The strategies described in this volume focus on the ability of expert educators to acknowledge the structures power and consequences of high stakes testing regimes while simultaneously designing and sustaining classroom assessment methods that embody the social participatory nature of learning and reflect research on effective practice p 289 The volume also describes the shared characteristics of the teachers who created these assessments especially their emphasis on self reflection and student autonomy as well as their professional willingness to take on challenges associated with performance based assessments even in the face of institutional pressures and external demands
