Blessings, Miracles & Supernatural Experiences Christopher H.K. Persaud, 2015-03-06 Many people today are reluctant to believe in blessings ensuing from a supernatural source and they are hesitant to lend credence to the possibility of miracles and supernatural experiences as well Numerous Christians too although they profess allegiance to the God of the Holy Bible tread delicately on a path that would otherwise bridge a chasm between the temporal or tangible and the miraculous or preternatural The result is a departure from Biblical Christianity and the embracing of a kind of pseudo religiosity far removed from the Gospel of Jesus Christ In Blessings Miracles Supernatural Experiences A Biblical Perspective A Christians Story the author presents an explicative discussion about blessings miracles and supernatural experiences from a Biblical standpoint He purposes to explain the supernaturalness of God while acknowledging present day humankind's falling away from Biblical Christianity and its pronouncements about an omniscient omnipotent and omnipresent Creator and Designer of life and of the universe The author devotes three full length chapters to the recollection of blessings miracles and supernatural experiences in his life the lives of family members including his siblings and their families and his parents There are stories about healings miracles supernatural experiences and even demon possession and exorcism all of which actually took place The penultimate and final chapters of Blessings Miracles Supernatural Experiences A Biblical Perspective A Christians Story examine the greatest miracle in history the Resurrection of Jesus Christ and analyze what religious scholars refer to as End time events and the ushering in of eternity a period of everlastingness in either of two locations heaven or hell

The Routledge Handbook of Religious Literacy, Pluralism, and Global Engagement Chris Seiple, Dennis R. Hoover, 2021-12-27 This pioneering handbook proposes an approach to pluralism that is relational principled and non relativistic going beyond banal calls for mere tolerance The growing religious diversity within societies around the world presents both challenges and opportunities

A degree of competition between deeply held religious worldview perspectives is natural and inevitable yet at the same time the world urgently needs engagement and partnership across lines of difference None of the world s most pressing problems can be solved by any single actor and as such it is not a question of if but when you partner with an individual or institution that does not think act or believe as you do The authors argue that religious literacy defined as a dynamic combination of competencies and skills continuously refined through real world cross cultural engagement is vital to building societies and states of neighborly solidarity and civic fairness Through examination reflection and case studies across multiple faith traditions and professional fields this handbook equips scholars and students as well as policymakers and practitioners to assess analyze and act collaboratively in a world of deep diversity The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
