Artists have to be producers, songwriters have to be producers, musicians have to be producers, recordists and mixers have to be producers, and most of those producers now have to be recordists, mixers, and mastering engineers too. Rather than reject that reality in an attempt to hold onto some archaic elitist notion of the past, I set out to write a modern producing guide that meets the needs of today's music makers. That turned into a monumental task. Nearly 600 pages later, I've written the most comprehensive book I've ever published on producing recorded music. Making records is hard. Misinformation is everywhere. And most of us are wearing multiple hats just to get the job done. Today you need to learn it all, which is a problem considering it took me nearly my entire career thus far to learn everything I share in this guide. It takes years of dedicated focus across varied real-world situations to master any one discipline. It's absolutely insane to try to master them all at once. But that's the world we live in, and that's why I wrote this book. As a gold and platinum award-winning mixer, engineer, and producer, my goal was to create an essential, no-BS guide full of battle-tested strategies for producing professional-quality music, whether for yourself or others, at home or in a full-scale studio. Making music is an art. The decision-making process

requires a human perspective This book comes from my unique experience as a professional music maker developed over decades of technological shifts and evolving musical trends I don't just tell you how to produce music I tell you why I make certain decisions and why you might make certain decisions whether musical technical organizational or political in nature There's insight in this book you won't find anywhere else Covers everything songwriting arranging recording mixing mastering engineering acoustics creative vision and studio politics For Home Producers Songwriter Producers Self Producers and For Hire Producers if you make music this book is for you Cuts through the BS no useless jargon no academic fluff just real world practical advice and explanations that focus on what's most important Your mix is your production Your production is your mastered mix If you want to create professional competitive and emotionally impactful music this Guide will prove invaluable a resource you'll return to for years to come

The Songs of Us Emma Cooper, 2018-05-31 Quirky clever and original this will break your heart but put it back together again Katie Fforde A quirky poignant book about love and family which I found myself racing through Libby Page One of my favourites of 2018 Amazon reviewer Fans of Jojo Moyes Cecilia Ahern and Marian Keyes will love this debut novel by Emma Cooper Shortlisted for the RNA Contemporary Novel Award The Songs of Us is a laugh out loud funny and heartbreaking novel of love loss and what it means to be a family If Melody hadn't run out of de-icer that day she would never have slipped and banged her head She wouldn't be left with a condition that makes her sing when she's nervous And she definitely wouldn't have belted out the Arctic Monkeys I Bet You Look Good on the Dancefloor in assembly at her son's school If Dev hadn't taken the kids to the zoo that day then the accident wouldn't have happened He wouldn't have left Flynn and Rose without a dad Or shattered the love of his life's heart But if they hadn't seen the missing person report that day they might never have taken the trip to Cornwall And in the last place they expected discovered what it really means to be Us Readers love The Songs of Us Rarely does a book come along that is as unique and mesmerising as The Songs Of Us Reminiscent of and in my humble opinion right up there with Me Before You by Jojo Moyes and Cecilia Ahern's PS I Love You It had me laughing and crying in equal measures The Songs of Us will soften your heart and make you smile Get your hands on a copy now TRUST ME This book is something really special I might even venture to say perfect I laughed cried felt sad and felt heart warmed in equal measures I could not put it down I really do highly recommend this book
