estimates the proceeds of crime and mafia revenues for different criminal markets such as sexual exploitation drugs illicit  
cigarettes loan sharking extortion racketeering counterfeiting illicit firearms illegal gambling and illicit waste management It  
is the first time that scholars have adopted detailed methodologies to ensure the highest reliability and validity of the  
estimation Overall estimated proceeds of crime amount to 22 8 billion 1 5% of the Italian GDP Of this up to 10 7 billion 0 7 of  
the GDP may be attributable to the Italian mafias These figures are considerably lower than the ones most frequently  
circulated on the news without any details about their methodology which were defined by a UN study as gross overestimates  
Far from underestimating criminal revenues the results of this study bring the issue of the proceeds of crime to an  
empirically based debate providing support for improved future estimates and more effective policies The volume s  
contributions were inspired by a project awarded by the Italian Ministry of Interior to Transcrime which produced the first  
report on mafia investments [www.investimentioc.it](http://www.investimentioc.it) This book was originally published as a special issue of Global Crime

**How Did Britain Come to This?** Gwyn Bevan, 2023-10-23. If every system is perfectly designed to get the results it gets, what is wrong with the design of the systems that govern Britain? And how have they resulted in failures in housing, privatisation, outsourcing, education and healthcare? In *How Did Britain Come to This*, Gwyn Bevan examines a century of varieties of systemic failures in the British state. The book begins and ends by showing how systems of governance explain scandals in NHS hospitals and the failures and successes of the UK and Germany in responding to Covid 19 before and after vaccines became available. The book compares geographical fault lines and inequalities in Britain with those that have developed in other European countries and argues that the causes of Britain's entrenched inequalities are consequences of shifts in systems of governance over the past century. Clement Attlee's postwar government aimed to remedy the failings of the prewar minimal state, while Margaret Thatcher's governments in the 1980s in turn sought to remedy the failings of Attlee's planned state by developing the marketised state, which morphed into the financialised state we see today. This analysis highlights the urgent need for a new political settlement of an enabling state that tackles current systemic weaknesses from market failures and over centralisation. This book offers an accessible analytic account of government failures of the past century and is essential reading for anyone who wants to make an informed contribution to what an innovative, capable state might look like in a post-pandemic world.

**Criminality and Power in the Postcolonial City** Maria Ridda, 2022-11-21. This book investigates the literary imaginings of the postcolonial city through the lens of crime in texts set in Naples and Mumbai from the 1990s to the present. Employing the analogy of a black hole, it posits the discourse on criminality as a way to investigate the contemporary spatial manifestations of coloniality and global capitalist urbanity. Despite their different histories, Mumbai and Naples have remarkable similarities. Both are port cities, gateways to their countries and regional trade networks, and both are marked by extreme wealth and poverty. They are also the sites and symbolic battlegrounds for a wider struggle in which the North exploits the South and the South fights back. As one of the characters of the novel *The Neapolitan Book of the Dead* puts it, a narrativisation of the underworld allows for a discovery of a different city from its forgotten corners. Crime provides a means to understand the relationship between space and society, culture in a number of cities across the Global South by tracing a narrative of postcolonial urbanity that exposes the connections between exploitation and the ongoing coloniality of power.
