Urban Geography in Postcolonial Zimbabwe Abraham R. Matamanda,Verna Nel,Innocent Chirisa,2021-05-07 This interdisciplinary book provides a cross sectoral and multi dimensional exploration and assessment of the urban geography perspectives in Zimbabwe Drawing on work from different disciplines the book not only contributes to academia but also seeks to inform urban policy with the view of contributing to the national aspirations of Zimbabwe attaining middle income status by 2030 Adopting a multi dimensional assessment that transcends disciplines such as urban and regional planning human and physical geography urban governance political science economics and development studies the book provides a background for co production concerning urban development in the Global South The book contributes into its analysis of the institutional and legislative framework that relates to the urban geography of Zimbabwe as these are responsible for the evolution of the urban system in the country The connections among different sectors and issues such as environment economy politics and the wider

objectives of the SDGs especially goal 11 aspiring to create sustainable communities by 2030 are explored The success stories relating to urban geography in Zimbabwe are identified together with the best possible practices that may inform urban planning policy and management **Resources in Education** ,1997 *Eastern and Southern Africa* Debby Potts,T.A.S. Bowyer-Bower,2016-02-04 A unique and comprehensive introduction to contemporary development issues in East and Southern Africa and represents a significant departure from the often descriptive approach adopted by existing regional and development texts on African regions Each contribution is carefully chosen to highlight the theoretical basis to development issues and the practical problems of implementing development plans in this vital subregion Overall this produces comprehensive and balanced coverage of historical economic political and social issues The twin issues of globalisation and modernisation give the book a clear focus The SAGE Encyclopedia of World Poverty Mehmet Odekon,2015-06-15 The SAGE Encyclopedia of World Poverty Second Edition addresses the persistence of poverty across the globe while updating and expanding the landmark work Encyclopedia of World Poverty originally published in 2006 prior to the economic calamities of 2008 For instance while continued high rates of income inequality might be unsurprising in developing countries such as Mexico the Organization of Economic Co operation and Development OECD reported in May 2013 even countries with historically low levels of income inequality have experienced significant increases over the past decade including Denmark Sweden and Germany The U N and the World Bank also emphasize the persistent nature of the problem It is not all bad news In March 2013 the Guardian newspaper reported Some of the poorest people in the world are becoming significantly less poor according to a groundbreaking academic study which has taken a new approach to measuring deprivation The report by Oxford University s poverty and human development initiative predicts that countries among the most impoverished in the world could see acute poverty eradicated within 20 years if they continue at present rates On the other hand the U N says environmental threats from climate change could push billions more into extreme poverty in coming decades All of these points lead to the need for a revised updated and expanded edition of the Encyclopedia of World Poverty Key Features 775 evaluated and updated and 175 entirely new entries New Reader s Guide categories Signed articles with cross references Further Readings will be accompanied by pedagogical elements Updated Chronology Resource Guide Glossary and thorough new Index The SAGE Encyclopedia of World Poverty Second Edition is a dependable source for students and researchers who are researching world poverty making it a must have reference for all academic libraries **Exploring the Complexities in Global Citizenship Education** Lauren Ila Misiaszek,2019-08-14 With a focus on the Global South this book argues that awareness and discussion of the politics of equity and inclusion in global citizenship education GCE research are essential to the future of nuanced and effective research in this area The book explores the notion of heavily regulated hard spaces to examine areas of institutional blindness and reflects on ways to negotiate the issue of sensitivity in an institutional context exploring how one s sensitivity relates to pedagogy and ethics

Through this in depth metadiscussion of GCE research the book provides a complex portrait of unique challenges in this domain and explores the nuanced experience of navigating temporal intersections of the global the citizen and education in geographically and thematically obstructed spaces This book will be of great interest to researchers policymakers academics and postgraduate students in the fields of global education comparative education and educational policy **Geographical Education Magazine** ,1996 **African Handbook of Climate Change Adaptation** Nicholas Ogue,Desalegn Ayale, Lydia Adeleke,Izael da Silva,2021-05-20 This open access book discusses current thinking and presents the main issues and challenges associated with climate change in Africa It introduces evidences from studies and projects which show how climate change adaptation is being and may continue to be successfully implemented in African countries Thanks to its scope and wide range of themes surrounding climate change the ambition is that this book will be a lead publication on the topic which may be regularly updated and hence capture further works Climate change is a major global challenge However some geographical regions are more severely affected than others One of these regions is the African continent Due to a combination of unfavourable socio economic and meteorological conditions African countries are particularly vulnerable to climate change and its impacts The recently released IPCC special report Global Warming of 1.5°C outlines the fact that keeping global warming by the level of 1.5°C is possible but also suggested that an increase by 2.0°C could lead to crises with crops agriculture fed by rain could drop by 50% in some African countries by 2020 and livestock production could damage water supplies and pose an additional threat to coastal areas The 5th Assessment Report produced by IPCC predicts that wheat may disappear from Africa by 2080 and that maize a staple will fall significantly in southern Africa Also arid and semi arid lands are likely to increase by up to 8% with severe ramifications for livelihoods poverty eradication and meeting the SDGs Pursuing appropriate adaptation strategies is thus vital in order to address the current and future challenges posed by a changing climate It is against this background that the African Handbook of Climate Change Adaptation is being published It contains papers prepared by scholars representatives from social movements practitioners and members of governmental agencies undertaking research and or executing climate change projects in Africa and working with communities across the African continent Encompassing over 100 contributions from across Africa it is the most comprehensive publication on climate change adaptation in Africa ever produced Sustainability in Developing Countries Susan Osireditse Keitumetse,Luc Hens,David Norris,2020-10-08 This book illustrates an alternative approach to state of sustainability reporting by presenting cross sectoral and multi disciplinary discussions on sustainability issues in the context of a developing country Botswana The book volume illustrates how academic publishing can supplement African governments existing forms of reporting on sustainability by providing on ground detailed descriptions and experiences relating to achievement of the various sustainable development goals SDGs In addition this process involves increases and enhances diversity of stakeholders that report on sustainability Furthermore the approach resonates with the UN's recommendation to

build local strategies for implementation of the 2030 agenda for sustainable development Conventional reporting on sustainability by most African countries is an exercise that is customarily the preserve of designated government ministries While this form of reporting provides a consistent platform for tracking sustainable development goals it can also benefit from juxtaposition with in depth descriptions and experiences provided by academic publishing Academia through publishing provides a framework for on ground situation analysis as well as in depth descriptions of African country s grass root experiences thus allowing for temporal tracking of sustainable development milestones As this volume illustrates experiences from the various contributors on this volume highlight different points of departure towards achieving the 2030 agenda Topics covered include biodiversity water management world heritage environment education tourism gender institutional approaches to achievement of SDGs as well as contribution of non governmental organisations NGO s amongst others

Encyclopedia of Distance Learning, Second Edition Rogers, Patricia L.,Berg, Gary A.,Boettcher, Judith V.,Howard, Caroline,Justice, Lorraine,Schenk, Karen D.,2009-01-31 Offers comprehensive coverage of the issues concepts trends and technologies of distance learning **Reading Literacy at Junior Secondary School Level in Zimbabwe** Rosemary Moyana,2000 Zimbabwe invested in much human and material development of education from independence in 1980 Many innovative ideas have been explored to improve the quality of education with a particular focus on reading literacy In 1988 Zimbabwe joined 31 other countries in a reading literacy research study at primary and junior secondary school levels under the International Association for the Evaluation of Educational Achievement Data is taken from 143 schools and over 2000 students **Shaping the Developing World** Andy Baker,2021-01-22 Why are some countries rich and others poor Colonialism globalization bad government gender inequality geography and environmental degradation are just some of the potential answers to this complex question Using a threefold framework of the West the South and the natural world Shaping the Developing World provides a logical and intuitive structure for categorizing and evaluating the causes of underdevelopment This interdisciplinary book also describes the social political and economic aspects of development and is relevant to students in political science international studies geography sociology economics gender studies and anthropology The Second Edition has been updated to include the most recent development statistics and to incorporate new research on topics like climate change democratization religion and prosperity the resource curse and more This second edition also contains expanded discussions of gender financial inclusion crime and police killings and the Middle East including the Syrian Civil War **Rural-urban Transformations** Mahmoud Bah,2003 **World Agricultural Economics and Rural Sociology Abstracts** ,1999 **Climate Change, Hazards and Adaptation Options** Walter Leal Filho,Gustavo J. Nagy,Marco Borga,Pastor David Chávez Muñoz,Artur Magnuszewski,2020-02-14 This book addresses the issue of climate change risks and hazards holistically Climate change adaptation aims at managing climate risks and hazards to an acceptable level taking advantage of any positive opportunities that may arise At the same time developing suitable responses to hazards

for communities and users of climate services is important in ensuring the success of adaptation measures But despite this knowledge about adaptation options including possible actions that can be implemented to improve adaptation and reduce the impacts of climate change hazards is still limited Addressing this need the book presents studies and research findings and offers a catalogue of potential adaptation options that can be explored It also includes case studies providing illustrative and inspiring examples of how we can adapt to a changing climate *List of Publications Deposited in the Library of the National Archives ,1971*
