To: TDMM 13th edition manual owners

From: Clarke W. Hammersley, BICSI Director of Publications

Please be advised that BICSI has recently published technical changes to the current *Telecommunications Distribution Methods Manual (TDMM)*, 13th edition.

While none of these changes are classified as "life safety" issues, there were many other changes such as metric conversion changes to make the conversions more "industry friendly." Some figures were also slightly modified. The changes to each item on a page are clearly marked with a revision bar to the immediate right or left of the change. The RCDD curriculum has also been updated to reflect these changes, as well as the exam database.

Please print the pages and insert them into your existing manual. Because our manuals' pages are double-sided, please print these as such. This will allow you to do a page-for-page change out in your manual. The changes to each item on a page are clearly marked with a revision bar to the right or left of the change, and the footer of each of these pages notes the month and year of the change.

You will notice that many of the pages you have printed do not have these revision bars and changed footers. The reason for this is the page-for-page change outs (meaning only one side of the double-sided page received a change. We want you to be able to pull out your old double-sided page and replace it with the new double-sided page).

If you have any questions, please e-mail me at chammersley@bicsi.org

Thank you:

Clarke W. Hammersley
