Every Song Ever Ben Ratliff,2016-02-25 From one of America s celebrated critics the definitive field guide to listening to music in the age of the Cloud The most significant revolution in the recent history of music has to do with listening it is now possible to listen to nearly anything at any time to ignore albums and to instantly flit across genres and generations from 1980s Detroit techno to 1890s Viennese neo romanticism Yet music criticism has historically focused on the musician s intent not the listener s experience *Every Song Ever* is therefore the definitive field guide to listening in an age of glorious overwhelming abundance By revealing the essential similarities between wildly different kinds of music Ben Ratliff shows how we listen to music now and suggests how we can listen better *Dialogue on Grief and Consolation* Terence O'Connell,2009 Have you lost a loved one The loss can be inestimable the grief excruciating What helped you Did someone say something comforting Did someone offer a consolation which you resented Have you ever tried to comfort someone with a terminal illness or one who has lost a loved one Knowing how to help or what to say that is not trite insincere or superficial can be difficult The point of view of a grieving person is quite different from that of those who wish to offer comfort In a multicultural society such as ours anticipating the beliefs of the grieving person can be even more difficult This book explores the perspective of a grieving person It considers the merits and potential harm of alternative comfort strategies As a philosophical analysis of grief it emphasizes an understanding of the beliefs that underlie grief and the usefulness or dangers of emotions Because grief is so complex and sensitive a narrow approach runs the risk of alienating the grieving person The

ideas in this book are expressed in a dialogue among three characters Their discussion is broad and fundamental Starting from the familiar consolation She s no longer suffering and the grieving person s resentment toward the expression the three friends articulate the value of life and the evils of death Their discussion enriches their understanding of grief Many consolations offered to mourners are poor arguments Even the better ones do their work best in the context of a greater understanding of grief
