The Alchemist Malayalam Translation:

Southern Postcolonialisms Sumanyu Satpathy, 2020-11-29 Southern Postcolonialisms is an anthology of critical essays on new literary representations from the Global South that seeks to re-invent, reorient the ideological, disciplinary, aesthetic and pedagogical thrust of Postcolonial Studies in accordance with the new and shifting politico-economic realities, transactions between the North and the South as well as within the Global South in an era of globalization. Since the emergence of Postcolonial Theory in the 1980s, the shape of the world has changed dramatically. Old Cold War boundaries have shifted in the wake of the collapse of communism. Globalization on an unprecedented scale has dramatically changed the meaning of time and space. The rise of the US as a new imperial power has profound implications for the world order. In the South, new emerging markets have challenged the older division of industrial first world and non-industrial third world. In most parts of the world, the academy is struggling to keep up with these developments. One result has been a major transnational turn in the humanities and social sciences. Terms like world history, globalization, glocalization and transnationalism now dominate academic agendas worldwide. These changing circumstances raise far-reaching questions: What does the new emerging world order mean for established models of postcolonial theory? Is postcolonialism as a field of study being overtaken by models of globalization and transnationalism? What implications do the new configurations in the South have for postcolonial theory? This volume, drawn from a major literary conference at Delhi University, provides a set of perspectives on these questions. With a majority of contributions by scholars from the South, these research articles have a dual focus: they revisit older debates on postcolonial theory while suggesting new perspectives and directions. Until recently, Kerala was considered a socio-political exception which had no room for Hindu nationalism. This book questions such Panglossian prognosis and shows the need to map the ideological and political growth of Hindu nationalism, which has been downplayed in the academic discourse as temporary aberrations. The introduction to the book places Kerala in the context of South India, arguing that Hindutva is a real force which needs to be contended within theoretical and empirical terms. The chapters in this book examine Hindu nationalism in Kerala in relation to themes such as history, caste, culture, post-truth ideology, gender politics and the Indian national space. Considering the rise of Hindu nationalism in the recent years, this pioneering book will be of interest to students and academics studying Politics in
