Culture on Two Wheels Jeremy Withers, Daniel P. Shea, 2016-07-01 Bicycles have more cultural identities than many realize functioning not only as literal vehicles in a text but also as vehicles for that text's themes, ideas and critiques In the late nineteenth century the bicycle was seen as a way for the wealthy urban elite to reconnect with nature and for women to gain a measure of personal freedom while during World War II it became a utilitarian tool of the French Resistance and in 1970s China stood for wealth and modernization Lately it has functioned variously as the favored ideological steed of environmentalists a means of community bonding and aesthetic self-expression in hip hop and the ride of choice for bike messenger idolizing urban hipsters Culture on Two Wheels analyzes the shifting cultural significance of the bicycle by examining its appearances in literary, musical and cinematic works spanning three continents and more than 125 years of history Bringing together essays by a variety of cyclists and scholars with myriad angles of approach this collection highlights the bicycle's flexibility as a signifier and analyzes the appearance of bicycles in canonical and well-known texts such as Samuel Beckett's modernist novel *Molloy* the Oscar-winning film *Breaking Away* and various Stephen King novels and stories as well as in lesser-known but equally significant texts such as the celebrated Russian director Andrei Tarkovsky's film *Sacrifice* and Elizabeth Robins Pennell's nineteenth-century travelogue *A Canterbury Pilgrimage* the latter of which traces the route of Chaucer's pilgrims via bicycle Listen to an interview with the author

The Blood of Others Simone de Beauvoir, 2024-10-03 Potent and vividly emotional Simone de Beauvoir's captivating novel questions freedom and individual responsibility in the face of brutality These carefree faces on which we allowed our smiles to spread were for others the mask of tragedy Jean Blomart patriot leader against the German forces of occupation waits throughout an endless night for his wounded lover Hélène to die Told through memories of his and her life *The Blood of Others* paints an intense and moving picture of their love story and life in German-occupied Paris during the Second World War In the face of a seemingly unstoppable force Hélène and Jean are confronted by the illusion of freedom and made to question their individual roles in the collective struggle against fascism with devastating consequences First published in 1945 this powerful novel resonates profoundly today and brings the ideas of one of the most important existentialist thinkers to life in spellbinding prose With an Introduction by Ali Smith

[Simone de Beauvoir's Political Thinking](#) Lori Marso, Patricia Moynagh, 2024-04-22 By exploring the life and work of the influential feminist thinker Simone de Beauvoir this book shows how each of us lives within political and social structures that we can and must play a part in transforming It argues that Beauvoir's careful examination of her own existence can also be understood as a dynamic method for political thinking As the contributors illustrate Beauvoir's political thinking proceeds from the bottom up using examples from individual lives as the basis for understanding and transforming our collective existence For example she embraced her

responsibility as a French citizen as making her complicit in the French war against Algeria Here she sees her role as an oppressor In other contexts she looks to the lives of individual women including herself to understand the dimensions of gender inequality This volume s six tightly connected essays home in on the individual s relationship to community and how one s freedom interacts with the freedom of other people Here Beauvoir is read as neither a liberal nor a communitarian The authors focus on her call for individuals to realize their freedom while remaining consistent with ethical obligations to the community Beauvoir s account of her own life and the lives of others is interpreted as a method to understand individuals in relations to others and as within structures of personal material and political oppression Beauvoir s political thinking makes it clear that we cannot avoid political action To do nothing in the face of oppression denies freedom to everyone including oneself

The Bonds of Freedom Kristana Arp,2001 Simone de Beauvoir published a number of philosophical essays and novels before writing *The Second Sex* The most important of these was *The Ethics of Ambiguity* in which she argues that one s freedom is always intertwined with that of others *The Bonds of Freedom* examines de Beauvoir s ideas on ethics demonstrating her importance in contemporary philosophy

Mau Mau Memoirs Marshall S. Clough, 1998 Clough history U of Northern Colorado analyzes 13 personal accounts by Kenyans in order to make a case for not only their historical value but their role in the struggle to define the importance of Mau Mau within Kenyan historiography and politics He argues that the recollections of the authors whose experiences ranged from organizing the secret movement to supplying the guerillas to active fighting to resistance in the British detention camps serve to refute both the British and Kenyan versions of the revolt

The Aesthetics of Clarity and Confusion

Geoffrey A. Baker, 2016-12-22 What should literature with political aims look like This book traces two rival responses to this question one prizing clarity and the other confusion which have dominated political aesthetics since the late nineteenth century Revisiting recurrences of the avant garde experimentalism versus critical realism debates from the twentieth century Geoffrey A Baker highlights the often violent reductions at work in earlier debates Instead of prizing one approach over the other as many participants in those debates have done Baker focuses on the manner in which the debate itself between these approaches continues to prove productive and enabling for politically engaged writers This book thus offers a way beyond the simplistic polarity of realism vs anti realism in a study that is focused on influential strands of thought in England France and Germany and that covers well known authors such as Zola Nietzsche Arnold Mann Brecht Sartre Adorno Lukacs Beauvoir Morrison and Coetzee
