Systematic Geography of Jammu and Kashmir Majid Husain, 2000-01-01 **Systematic Geography of Jammu and Kashmir** V. S. Manhas, Rakesh Jasrotia, 2013 **Biodiversity of the Himalaya: Jammu and Kashmir State** Ghulam Hassan Dar, Anzar A. Khuroo, 2020-02-26 The Himalaya a global biodiversity hotspot sustains about one fifth of the humankind Nestled within the north western mountain ranges of the Himalaya the Jammu and Kashmir J K State harbours more than half of the biodiversity found in the Indian Himalaya The wide expanse of State spread across the subtropical Jammu through the temperate Kashmir valley to the cold arid Ladakh is typical representative of the extensive elevational and topographical diversity encountered in the entire Himalaya This book the most comprehensive and updated synthesis ever made available on biodiversity of the J K State is a valuable addition to the biodiversity literature with global and regional relevance The book arranged into 7 parts comprises of 42 chapters contributed by 87 researchers each of whom is an expert in his her own field of research The precious baseline data contained in the book would form the foundation for assessing current status of knowledge about the bioresources identify the knowledge gaps and help prioritization of conservation strategies to steer the sustainable use of biodiversity in this Himalayan region Given the breadth of topics covered under the banner of biodiversity in this book it can surely serve as a model for documentation of biodiversity in other regions of the world The book will be of immense value to all those who directly or indirectly have to deal with biodiversity including students teachers researchers naturalists environmentalists resource managers planners government agencies NGOs and the general public at large **Population Geography** S. A. Qazi, 2010 *SPATIAL ANALYSIS AND GEOSPATIAL TECHNOLOGIES* Dr. Basavaraj R. Bagade & Dr. Mohd Akhter Ali, 2020-06-18 The administrators of city or a town adopt two approaches to evaluate the urban places and the impact of urbanization The first approach undertakes the Study of size function growth rate and tributary area of cities in the general fabric of settlements The second approach deals with the internal structure of cities and the related factors which control the layout and buildings the character and intensity of land use the movement of persons and goods between various functional areas The land use planning is a part of larger process of city planning It is basically concerned with location intensity and amount of land development required from various space using functions of city life such as industry wholesaling business housing recreation education and religious and cultural activities of the people The study of urban land use and its planning is of considerable significance in the overall planning of urban places like Gadag Betageri city Decline and decay of our cities calls for all policy makers administrators and Politicians to stop destructive forces of the urban development and to forge alliances among all local and national forces

which are concerned with the social political economic ecological physical and cultural development of our cities and towns Despite the claims that developments in communications imply that the cities are Remote Sensing and GIS going to lose their function and will change dramatically it cannot be predicted that the new paradigm of the information city will only represent another device of those who do not have access to information technology *Physical Geography: a Landscape*
