It provides a programmatic state of the art, overviews of current issues in the language sciences and their applications in first, second, and bilingual language acquisition in naturalistic and tutored contexts, and brings together disciplinary perspectives from linguistics, sociolinguistics, language teaching, education, and intercultural communication. This book will be of particular interest to anyone wishing to know the value and the pitfalls of current research to understand its various applications for foreign language education in Bosnia and Herzegovina and to appreciate the qualities of rigor and trustworthiness required to evaluate and interpret current studies in Bosnia and Herzegovina. The contributions by leading scholars and practitioners are structured to give a survey of the topic, highlight its importance, and provide a critical stance. The book covers preschool ages and looks at children belonging to diverse ethno-linguistic groups and experiencing different histories and pathways of their socio-linguistic and socio-cultural development and early education. The languages under the scope of this handbook are identified by the contributors as immigrant languages, indigenous, endangered, heritage, regional, minority, majority, and marginalized, as well as foreign and second languages, all of which are discussed in relation to early language education as the key concept of the handbook. In this volume, early language education will refer to any kind of setting, both formal and informal, e.g., nursery, kindergarten, early childhood education centers, complementary early schooling, etc., in which language learning within a context of children's sociolinguistic diversity takes place before elementary school. *The Routledge Handbook of Teaching English to Young Learners* Sue Garton, Fiona Copland, 2018-10-10 The Routledge Handbook of Teaching English to Young Learners celebrates the coming of age for the field of research in primary level English Language Teaching.
