Kathleen Brooks on Forex Kathleen Brooks, 2013-03-27 A simple approach to successful forex trading Many foreign exchange traders use either fundamental analysis or technical analysis and they're

often considered to be mutually exclusive approaches But FX does not have to be traded that way fusing the two types of analysis will improve your research and more importantly your trading results This is how Kathleen Brooks trades foreign exchange and she has found it to be extremely successful In Kathleen Brooks on Forex she reveals the secrets of this approach demonstrating the indicators she uses and showing through detailed examples how she plans and executes profitable trades At the heart of Kathleen s trading philosophy is the principle that fundamental factors politics economics and societal changes cause currency prices to move in the medium to long term and sometimes in the strangest ways but throughout the day the price movements are based upon technical factors Building a trading plan around the two sets of factors works for her and by reading about how she does her pre trade market analysis the homework forms a trading plan and puts the plan into action you will see how to apply this principle in practice in your own trading The book is divided into four sections Part A using fundamental indicators to gain an impression of the market Part B using technical indicators to refine your trading plan Part C fusing fundamental and technical analysis to select trades Part D revealing Kathleen s risk management techniques Kathleen s description of her method and ideas on how you can use it too will appeal to anyone who wants to learn more about how to trade foreign exchange as well as those already in the market looking for a fresh approach Blissfully free of rhetoric written in an accessible personal style and punctuated with anecdotes from Kathleen s unique career in the markets this is a new and refreshing look at foreign exchange
