The Bernard Cohn Omnibus An Anthropologist Among The Historians And Other Essays Colonialism And Its Forms Of Knowledge India The Social Anthropol:

Negotiating the Modern Amit Ray, 2007-01-22 This book explicates long standing literary celebrations of India and Indianness by charting a cultural history of Indianness in the Anglophone world locating moments in intellectual religious and cultural history where India and Indianness are offered up as solutions to modern moral ethical and political questions in the West Beginning in the early 1800s South Asians actively seek to occupy and modify spaces created by the scholarly discourses of Orientalism the study of the East Orient via Western European epistemological frameworks Tracing the varying fortunes of Orientalist scholars from the inception of British rule this study charts the work of key Indologists in the colonial era The rhetorical constructions of East and West deployed by both colonizer and colonized as well as attempts to synthesize or transcend such constructions became crucial to conceptions of the modern Eventually Indian desire for political sovereignty together with the deeply racialized formations of imperialism produced a shift in the dialogic relationship between South Asia and Europe that had been initiated and sustained by orientalists This impetus pushed scholarly discourse about India in Europe North America and elsewhere out of what had been a direct role in politics and theology and into high Literary culture

Notions of Nationhood in Bengal: Perspectives on Samaj, c. 1867-1905 Swarupa Gupta, 2009-06-24 This book reopens the debate on colonial nationalisms going beyond derivative borrowed political and modernist paradigms It introduces the conceptual category of samaj to demonstrate how indigenous socio cultural origins in Bengal interacted with late colonial discourses to produce the notion of a nation Samaj a historical society and an idea in practice was a site for reconfiguring antecedents and negotiating fragmentation Drawing on indigenous sources this study shows how caste class ethnicity region and community were refracted to conceptualise wider unities The mapping of cultural continuities through change facilitates a more nuanced investigation of the ontology of nationhood seeing it as related to but more than political nationalism It outlines a fresh paradigm for recalibrating postcolonial identities offering interpretive strategies to mediate fragmentation

Glittering Decades Nayantara Pothan, 2012-01-30 New Delhi was purpose built to trumpet the supremacy of the British Raj and inaugurated in 1931 Instead it came to represent a fading imperial dream in the two decades that followed In the heyday of the British Raj strict social and racial hierarchies governed the social life of the city s ruling elites And the frivolity of New Delhi s high society was kept in check by a faithful adherence to etiquette and protocol in everyday life For example the sixteen button glove at a formal viceregal dinner party was of great importance as a means of maintaining the authority of the Raj But the 1930s and 1940s were a period of transition The political shifts associated with India s journey to self government echoed in the social codes of conduct adopted by the Indian elites of New Delhi and undermining the Raj s pomp became a legitimate means of challenging its authority Closely examining the role of social ritual interaction and behaviour in the shaping of the city and its elite groups *Glittering Decades* tells the story of New Delhi and its
