Barker offers historical overviews of Korean traditional rhythmic forms, analysis of rhythmic structures appearing in a variety of styles, an analysis and chronological account of his development of a Koreanized approach to the drumset, a methodology for performing p ansori accompaniment on the drumset, an introduction to Korean extended techniques, and a large collection of drumset studies based on Korean traditional forms such as tas r m ch ilch ae and ritual music structures from Korea's East Coast. Barker also explores physical practices employed by Korean musicians which aid in the development of a relaxed dynamic approach to performance. He creates a framework for creating an alternative approach to drumset education and performance through an engagement with Korea's extraordinary rhythmic and aesthetic traditions. The volume includes accompanying downloadable resources featuring recordings of developmental exercises, solo drumset improvisations, and ensemble performances, each track representing a subject of discussion within the volume.
