**Climate-smart agriculture training manual** Food and Agriculture Organization of the United Nations, 2018-11-07 This manual is designed for a four day training course on climate smart agriculture that would take the learner from the basics of climate science to the impacts of climate change and the linkages among climate agriculture and food security It contains four modules each addressing a

particular aspect and consisting of several sessions that are held either in plenary as one group or in smaller work groups. The content and structure of this manual has been developed and tested through fieldwork involving extension agents and agricultural producers in Zambia, Malawi and Viet Nam. Innovative Water Finance in Africa Cush Ngonzo Luwesi, Atakilt Beyene, 2023-10-28. Water has become increasingly central to addressing multiple development and environmental objectives in the course of climate change. Exploring the multiple dimensions of water governance policy and management in a holistic way is thus imperative for financial innovations to take place in the water sector. This book constitutes first of all a reference document allowing African managers and policymakers to broaden their knowledge of financing strategies and tactics in order to raise funds for water services provision and water resources development. Additionally, the book reviews the agenda on water and sanitation services in order to ensure water resources development has a place in funding structures. The book presents and discusses contemporary instruments of financing water services and water resources development in Africa. In this regard, three major thematic areas are recognized as key: Coverage of the legal and institutional contexts pertaining to water financing innovations; an assessment of economic mechanisms and principles subtending financial innovations in the water sector; and applications of innovative water financing mechanisms based on scale formation and adoption practices. This book highlights the principles of economic profitability and financial sustainability to enable creditworthiness and a snowball effect of borrowing and will be of interest to researchers, policymakers and academics as well as development agencies and financiers of sustainable development and environmental Blue and Green economies. Handbook of Climate Change Impacts on River Basin Management Saeid Eslamian, Mir Bintul Huda, Nasir Ahmad Rather, Faezeh A. Eslamian, 2024-08-29. Climate change not only involves rising temperatures but it can also alter the hydro meteorological parameters of a region and the corresponding changes emerging in the various biotic or abiotic environmental features. One of the results of climate change has been the impact on the sediment yield and its transport. These changes have implications for various other environmental components, particularly soils, water bodies, water quality, land productivity, sedimentation processes, glacier dynamics and risk management strategies, to name a few. This volume provides an overview of the fundamental processes and impacts of climate change on river basin management and examines issues related to soil erosion, sedimentation and contaminants as well as rainfall runoff modeling and flood mitigation strategies. It also includes coverage of climate change fundamentals as well as chapters on related global treaties and policies.
