Import Alert # 99-33

Published Date: 03/04/2021

Type: DWPE

Import Alert Name:

Detention Without Physical Examination of Products from Japan Due to Radionuclide Contamination

Reason for Alert:

NOTE: Revisions to this Import Alert dated March 4, 2021 updates reason for alert with March 2021 edit and removes one product in the Guidance section under IWATE PREFECTURE. Changes are noted and bracketed by asterisks ("**").

On March 11, 2011, an 8.9 magnitude earthquake triggering a 30 ft tsunami struck the Pacific Coast of Japan. The force of the tsunami destroyed a great deal of the infrastructure along portions of the Japanese coast. The most notable damage from the tsunami affected the Fukushima Daiichi nuclear plant. The following prefectures are in the closest proximity to the Fukushima Daiichi nuclear plant: Fukushima, Gunma, Ibaraki, and Tochigi.

The Fukushima Daiichi nuclear plant houses several nuclear reactors that pose of a potential threat of radiological contamination to the surrounding areas. Due to the public health concerns that are associated with radiation and nuclear contamination, FDA has increased surveillance of regulated products from Japan.

On March 19, 2011, the Japanese Ministry of Health, Labour and Welfare confirmed the presence of radioactive iodine contamination in dairy, fresh produce, and infant formula products. Japanese data analyses revealed that the food products measured from March 16-18, 2011, indicated the presence of radioactive iodine was five times the acceptable levels. The elevated levels were identified in products tested in Kawamata Town, Fukushima prefecture and Ibaraki prefecture; areas around the Fukushima Daiichi nuclear power plant.

Though radioactive iodine has a short half-life of about 8 days and decays naturally within a matter of weeks, there is a risk to human health if radioactive iodine in food is absorbed into the human body. If ingested, it can accumulate in and cause damage to the thyroid. Children and young people are particularly at risk of thyroid damage due to the ingestion of radioactive iodine.

On March 21, 2011, the Japanese Prime Minister ordered the Governors of the affected prefectures of Fukushima, Gunma, Ibaraki, and Tochigi to stop the distribution of spinach and kakeina (a local Japanese vegetable) into the market and ordered the Governor of Fukushima prefecture to stop the distribution

Fda Import Alert 99 33 Food And Drug Administration

**United States. Congress. Senate.
Committee on Governmental Affairs.
Permanent Subcommittee on
Investigations**

Fda Import Alert 99 33 Food And Drug Administration:

Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations for 2014 United States. Congress. House. Committee on Appropriations. Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies,2013

Multiresidue Methods for the Analysis of Pesticide Residues in Food Horacio Heinzen,Leo M.L. Nollet,Amadeo R. Fernandez-Alba,2017-10-10 In the last decades the public concern on the pesticide residues content in foods have been steadily rising The global development of food trade implies that aliments from everywhere in the world can reach the consumer s table Therefore the identification of agricultural practices that employ different pesticides combinations and application rates to protect produce must be characterized as they left residues that could be noxious to human health However the possible number of pesticides and its metabolites of toxicological relevance to be found in a specific commodity is almost 1500 and the time needed to analyze them one by one makes this analytical strategy a unrealistic task To overcome this problem the concept of Multi Residue Methods MRM for the analysis of pesticide traces have been developed The advent of new and highly sensitive instrumentation based in hyphenatedchromatographic systems to coupled mass analyzers XC MS MS or MSn permitted simultaneously the identification and the determination of up to hundreds of pesticide residues in a single chromatographic run Multiresidue Methods for the Analysis of Pesticide Residues in Food presents the analytical procedures developed in the literature as well as those currently employed in the most advanced laboratories that perform routinely Pesticide Residue Analysis in foods In addition to these points the regulations guidelines and recommendations from the most important regulatory agencies of the world on the topic will be commented and contrasted

Building Resilient Energy Systems Jennifer F. Sklarew,2022-11-14 This book explores an ongoing puzzle why don t catastrophic events such as oil shocks and nuclear meltdowns always trigger transitions away from the energy technologies involved Jennifer F Sklarew examines how two key factors shocks and stakeholder relationships combine to influence energy system transitions applying a case study of Japan s trajectory from the time of the 1970s oil crises through the period following the 2011 Fukushima Daiichi nuclear disaster Examining the role of diverse stakeholders resilience priorities she focuses on how changes in stakeholder cooperation and clout respond to and are affected by these shocks and how this combination of shocks and relationship changes shapes energy policies and policymaking From Japan s narrative the book derives unique and universal lessons for cooperation on innovation and energy system resilience applicable to communities and nations around the globe including implications for transitions in the context of the COVID 19 pandemic The book also places energy system resilience and innovation in the broader context of the food energy water climate nexus Building Resilient Energy Systems Lessons from Japan will appeal to all levels of readers with an interest in energy policy energy technologies and energy transitions experts and specialists academics and students practitioners and policymakers

Handbook on the Toxicology of Metals: Volume II: Specific

Metals Gunnar F. Nordberg, Max Costa, 2021-12-01 Handbook on the Toxicology of Metals Volume II Specific Metals Fifth Edition provides complete coverage of 38 individual metals and their compounds This volume is the second volume of a two volume work which emphasizes toxic effects in humans along with discussions on the toxic effects of animals and biological systems in vitro when relevant The book has been systematically updated with the latest studies and advances in technology As a multidisciplinary resource that integrates both human and environmental toxicology the book is a comprehensive and valuable reference for toxicologists physicians pharmacologists and environmental scientists in the fields of environmental occupational and public health Contains peer reviewed chapters that deal with the effects of metallic elements and their compounds on biological systems with a focus on human health effects Includes information on sources transport and the transformation of metals in the environment Provides critical information on the properties use biological monitoring dose response relationships diagnosis treatment and prevention of 38 metallic elements and their compounds **Diminished**

Capacity: Can the FDA Assure the Safety and Security of the Nation's Food Supply? Serial No. 110-33 Part B, October 11 and November 13, 2007, 110-1 Hearings, *, 2009 **Diminished Capacity: Can the FDA Assure the**

Safety and Security of the Nation's Food Supply? Serial No. 110-33 Part A, April 24 and July 17, 2007, 110-1 Hearings, *, 2009 *Photocarcinogenesis & Photoprotection* Ratan Singh Ray, Chandana Halder, Ashish Dwivedi, Neeraj Agarwal, Jyoti Singh, 2018-11-30 This book highlights the problem of UV R induced photocarcinogenesis and its molecular mechanism It covers different photosensitive xenobiotics drugs cosmetics and environmental pollutants and their photosensitization mechanisms under ambient UV R exposure It also summarizes the role of nanotechnology in skin cancer remedies It provides a brief overview of the various novel nanocarriers for cosmeceuticals like nanoemulsions liposomes solid lipid nanoparticles SLNs dendrimers inorganic nanoparticles nanocrystals etc nanotechnology based cosmeceutical products which are available in the market It highlights the possible health hazards caused by nanoparticles on exposure of nano based cosmetics and describes the recent regulatory rules applied to avoid the nanotoxicity Food, Drug, Cosmetic Law Reporter, 1963 **Government Reports Annual Index**, 1990 Government Reports Announcements & Index, 1995

Validating Clinical Trial Data Reporting with SAS Carol I. Matthews, Brian C. Shilling, 2008 This indispensable guide focuses on validating programs written to support the clinical trial process from after the data collection stage to generating reports and submitting data and output to the Food and Drug Administration **Critical Role of Animal Science**

Research in Food Security and Sustainability National Research Council, Division on Earth and Life Sciences, Board on Agriculture and Natural Resources, Policy and Global Affairs, Science and Technology for Sustainability Program, Committee on Considerations for the Future of Animal Science Research, 2015-03-31 By 2050 the world's population is projected to grow by one third reaching between 9 and 10 billion With globalization and expected growth in global affluence a substantial increase in per capita meat dairy and fish consumption is also anticipated The demand for calories from animal products will

nearly double highlighting the critical importance of the world's animal agriculture system Meeting the nutritional needs of this population and its demand for animal products will require a significant investment of resources as well as policy changes that are supportive of agricultural production Ensuring sustainable agricultural growth will be essential to addressing this global challenge to food security Critical Role of Animal Science Research in Food Security and Sustainability identifies areas of research and development technology and resource needs for research in the field of animal agriculture both nationally and internationally This report assesses the global demand for products of animal origin in 2050 within the framework of ensuring global food security evaluates how climate change and natural resource constraints may impact the ability to meet future global demand for animal products in sustainable production systems and identifies factors that may impact the ability of the United States to meet demand for animal products including the need for trained human capital product safety and quality and effective communication and adoption of new knowledge information and technologies The agricultural sector worldwide faces numerous daunting challenges that will require innovations new technologies and new ways of approaching agriculture if the food feed and fiber needs of the global population are to be met The recommendations of Critical Role of Animal Science Research in Food Security and Sustainability will inform a new roadmap for animal science research to meet the challenges of sustainable animal production in the 21st century *Food and Drug Law Journal*, 2003

The Safety of Food Imports United States. Congress. Senate. Committee on Governmental Affairs. Permanent Subcommittee on Investigations, 1998 Customs Bulletin United States. Department of the Treasury, U.S. Customs Service, 2001 *Global Agricultural Trade and Developing Countries* M. Ataman Aksoy, John C. Beghin, 2004-11-01 *Global Agricultural Trade and Developing Countries* presents research findings based on a series of commodity studies of significant economic importance to developing countries The book sets the stage with background chapters and investigations of cross cutting issues It then describes trade and domestic policy regimes affecting agricultural and food markets and assesses the resulting patterns of production and trade The book continues with an analysis of product standards and costs of compliance and their effects on agricultural and food trade The book also investigates the impact of preferences given to selected countries and their effectiveness then reviews the evidence on the attempts to decouple agricultural support from agricultural output The last background chapter explores the robustness of the global gains of multilateral agricultural and food trade liberalization Given this context the book presents detailed commodity studies for coffee cotton dairy fruits and vegetables groundnuts rice seafood products sugar and wheat These markets feature distorted policy regimes among industrial or middle income countries The studies analyze current policy regimes in key producing and consuming countries document the magnitude of these distortions and estimate the distributional impacts winners and losers of trade and domestic policy reforms By bringing the key issues and findings together in one place *Global Agricultural Trade and Developing Countries* aids policy makers and researchers both in their approach to global negotiations and in evaluating

their domestic policies on agriculture The book also complements the recently published Agriculture and the WTO which focuses primarily on the agricultural issues within the context of the WTO negotiations Fundamentals of Law and Regulation: An in-depth look at therapeutic products Robert P. Brady,1997 *Herbal Medicines* Joanne Barnes,Linda A. Anderson,John David Phillipson,2007 Written by experts in the fields of pharmacognosy phytochemistry phytopharmacy clinical herbal medicines phytopharmacovigilance and regulation of herbal medicinal products Herbal Medicines is an invaluable reference text for pharmacists and other healthcare professionals who require evidence based information on herbal medicines used for treatment and prevention of health problems Current Law Index ,2006 **F & S Index**
