Understanding the Higher Education Market in Africa Emmanuel Mogaji, Felix Maringe, Robert Ebo Hinson, 2020-03-06
This book offers theoretical and practical insights into the marketing of higher education in Africa. It explores the key players, challenges, and policies affecting higher education across the continent, their marketing strategies, and the students' selection process. While acknowledging the vast size of the continent, this book aims to provide an understanding of the dynamics of higher education in Africa. This book recognises the private and government involvement in higher education provision and students and staff as stakeholders in the marketisation process. Strategic efforts are directed by universities to attract prospective students. This book further addresses issues such as the responses of higher education sectors to the notion of markets and marketing, consumerism, and competition in higher education in Africa, conceptions of the commodification of higher education in Africa, and the dominance of Western epistemologies and their influence in transforming higher education sectors. Students as consumers in increasingly marketised higher education sectors in Africa are also discussed. Though primarily for marketing students and academic researchers, the book's feature of blended theoretical and practical knowledge means that it will also be of interest to marketing practitioners and university managers.

Taiwan in Africa Sabella Ogbobode Abidde, 2022-11-08
While China's role and place in Africa has garnered a lot of scholarly attention, be it praise or condemnation, not much has been written about Taiwan's role and place on the continent, even though Taiwan was a major player and partner in Africa's quest for growth and development. From the 1960s to 1971, more African countries had diplomatic relations with Taiwan as opposed to China. But less than five decades after the United Nations General Assembly Resolution 2758 was passed, there has been a reversal of fortune in terms of supremacy and diplomatic recognition, with only one country, Eswatini, recognizing Taiwan as an independent country. *Taiwan in Africa: Seven Decades of Certainty and Uncertainties*, edited by Sabella Ogbobode Abidde, addresses gaps in academic literature regarding Taiwan's engagement with states and societies on the continent. This book examines international political economy, international security, the history of modern Africa, and geopolitical pressures and conflict. It addresses Taiwan's early engagement with the continent and the geopolitical and economic considerations that influenced African governments in their decision-making vis-à-vis their relationship with Taipei.

Gender, Disability, and Tourism in Africa Erisher Woyo, Hellen Venganai, 2022-11-10
This book explores the intersection of gender and disability in the context of tourism. In part, the book foregrounds feminist theorising of intersectionality by examining how gender can overlap with other social identities to contribute to more systemic oppression, domination, discrimination, and marginalisation of certain categories of people. Our point of departure is that disability does not operate in isolation as it is constituted and experienced within an already gendered social and tourism environment. With substantial research on the intersection of gender and tourism on the one hand, and the intersection of disability and tourism on the other hand, the interconnectedness of gender and disability and the implications this has on tourism policy and

practice remains understudied Thus the book provides a critical lens that helps unpack underlying assumptions about gender and disability while questioning the dominant ideas about gender and disability reproduced through tourism policies and institutional practices in an African context This book will be of interest to scholars and researchers in Gender Studies Disability Studies and Tourism Studies particularly those with a research interest in Africa Nollywood in Glocal Perspective Bala A. Joseph A. Balogun,2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country s low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate

students teachers and their school s performance This book argues that the poor quality of education and low ranking of Nigeria s educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to policymakers and scholars in the fields of African education higher education quality and global studies African studies management and administration leadership and professional development studies Joseph Abiodun Balogun is former Dean and retired Distinguished University Professor at the College of Health Sciences Chicago State University USA Visiting Professor Program Consultant at the Centre of Excellence in Reproductive Health Innovation University of Benin Nigeria and President CEO Joseph Rehabilitation Center Tinley Park Illinois USA

Yearbook on the African Union Volume 4 (2023)
 , 2024-11-11 This is the fourth edition of the Yearbook on the African Union (YBAU). The YBAU is first and foremost an academic project that provides an in-depth evaluation and analysis of the institution, its processes, and its engagements. Despite the increased agency in recent years of the African Union in general and the AU Commission in particular, little is known outside expert policy or niche academic circles about the Union's activities. This is the gap the Yearbook on the African Union wants to systematically address. It seeks to be a reference point for in-depth research, evidence-based policy making, and decision making. Contributors are Ndubuisi Christian Ani, Kwesi Aning, Juliana Abena Appiah, Habibu Yaya Bappah, Bruce Byiers, Annie Barbara Hazviyemurwi, Chikwanha Dawit, Yohannes Wondemagegnehu, Debela Fituma, Cheryl Hendricks, Jens Herpolsheimer, Benedikt Kamski, Tony Karbo, Hubert Kinkoh, Klara Leithner, Edefe Ojomo, Francis Onditi, Naila Salihu, Rahel W. popular mandate and the anchor of accountability offered immense opportunity for learning that would catalyze further institutional reforms and democratic consolidation
