Resources in Education, 1990 Research in Education, 1973 APPLICATION OF PLYOMETRIC TRAINING FOR DEVELOPMENT OF SPEED AND STRENGTH IN HOCKEY Prof. Rajesh Kumar & Dr. G. Akhila, 2020-11-30 Hockey is a field game played both men and women. Each team has 11 players who use a stick with a hook which forms the head to hit the ball along the ground. The object of the game is to send the ball into the Opponent's goal. Wins. The team consists of 16 players. Hockey at any level is a thrilling game enjoyed by players of all ages. The vast majority play the game primarily for social reasons and do not normally have the opportunity for the sort of coaching that could significantly improve their individual skills and overall performance. In truth, improvements in technique and fitness can only enhance one's enjoyment of the game, so everyone should take the opportunity to learn a little more of what it is all about. Games are probably as old as man himself. Many writers gave rise to hints about the origins of Hockey using the writings, paintings, and sculptures of the ancients as evidence. Some very plausible theories have emerged, but unfortunately, researchers dwelling into the past of other games played the same evidence as substantiating the development of their particular past time. In this connection, it is interesting to know that according to Dr. Dannie Craven, RUGBY was once played with a stick.
