to another 19471964 India 19641974 Pakistan 19742011 Saudi Arabia 2011present United States The culture social system history tradition arts language literature education system and others will definitely influence anybody who has spent ten years or more in a country Some may adopt a particular part of the local culture quickly such as clothing language food and so on It is very common to see nurses from the Philippines learn Arabic in a few months and start talking to Saudi patients or visitors in Arabic with fluency because of the demand of their jobs I feel sorry that I cannot speak Arabic as good as those Asian workers speak However their languages and scripts are completely different from Arabic Now one can understand that having lived in three countries for ten years or more I have enriched my knowledge and skills and enhanced other capabilities as information professional I believe in the principle of give and take I have benefitted from world knowledge all my life now it is my turn to give something to the seekers of knowledge in return Life is not about just take take and take it is about both give and take I find writing about myself as the most difficult job During my professional career I have worked with so many bosses including deans directors and heads of departments Before they left KFUPM or went back to their departments on the completion of their term I requested recommendation letters from each one of them Except my American bosses all Saudi bosses asked me to first prepare a draft and show it to them so that they could make any changes if needed I had to be a little modest in preparing those drafts I always felt that if the bosses had written those letters themselves they would have used more superlatives for me Therefore I am already feeling a little uncomfortable writing my own biography I will try to make this volume an objective and fair account of my personal and professional life Family Roots in India Following the uprising of 1857 which the freedom fighters lost the British forces started taking revenge against them and the local population civilians fearing for their lives started to move out Among those who migrated in 1859 from Azam Garth and decided to settle down at Kamptee was the family of my pardada great grandfather Mohammad Abdullah He built ten mud houses and gave them free to the settlers until they found their own accommodation Munshi Mohammed Saeed my dada jan grandfather was born on April 30 1875 in Kamptee He is known more as a poet than for any other things He used to publ

Aljohani, 2021-02-11 This book features research presented and discussed during the Research Innovation Forum Rii Forum 2020. As such this book offers a unique insight into emerging topics issues and developments pertinent to the fields of technology innovation and education and their social impact. Papers included in this book apply inter and multi disciplinary approaches to query such issues as technology enhanced teaching and learning smart cities information systems cognitive computing and social networking. What brings these threads of the discussion together is the question of how advances in computer science which are otherwise largely incomprehensible to researchers from other fields can be effectively translated and capitalized on so as to make them beneficial for society as a whole. In this context Rii Forum and Rii Forum proceedings offer an essential venue where diverse stakeholders including academics the think tank sector and decision makers can engage in a meaningful dialogue with a view to improving the applicability of advances in computer science **The**
