Advances in Services Marketing Hans Mühlbacher, Jean-Paul Flipo, 2013-07-01 The first French German Workshop was held in Innsbruck in the beginning of 1996

and attracted about 30 researchers from the French and German speaking areas in Europe namely Germany Austria France and Switzerland plus two Japanese professors who belong to the French Marketing Association A F M The initiative was taken by marketing research authorities on both sides given that researchers have generally speaking little or no opportunities to know of the research which is carried out in foreign countries apart from that which is published in international journals The German and French speaking communities in Europe representing a great number of people it was thought that a specific workshop could be organized in the perspective of intermingling researchers from both sides In fact much of the workshop participants were bilingual French German but English was the only common language for everybody so this is the reason why it was chosen as the working language A large range of topics was presented during the two days given that traditionally and necessarily service marketing issues overlap service management ones we will present very briefly in this introduction the main issues dealt with in this book of proceedings classifying them by theme Like in any other marketing conference the theme consumer behavior was the most important one in respect of number of presentations as well as background of most of the others Underlining the fact that service attributes are manifold almost unlimited in number
