The common starting point resides in the paradox that exists in today s connected world while global access to information makes learners aware of the infinite variety of cultural diversity it does not however make them critical thinkers For this reason there is opportunity to reshape critical thinking within a more global perspective while enhancing the tools to identify interpret and compare the different cultural models that learners encounter The book demonstrates the theories and practical applications by which instructors use contemporary film to provide insightful readings on diverse local communities communities that form the basis of global culture This collection of essays will serve as a pedagogical tool and resource offering methods and examples of a communicative approach to analyze and integrate cultural diversities similarities and problems in the second language curricula methods that expose students to different cultural models while scaffolding their critical approach to multiple layers of common and specific values This work will encourage a dialogue and long lasting conversation on methodologies and teaching strategies rethought reapplied and remolded to the new learning environments **Morality of the Past from** the Present Perspective Vasil Gluchman, 2009-03-26 The monograph is divided into four parts The work starts with Preface in which Vasil Gluchman presents socio political socio cultural and ideological context of the first half of the twentieth century and the situation in Slovakia and Central Europe in this historical period placing this monograph and the works of individual contributors into the context of the given era. The first part deals with philosophical and ethical issues arising from the examination of morality at the end of the 19th century and the beginning of the 20th century. This part creates the methodological starting point for the examinations presented in the next three parts of the monograph The second part focuses on the development of philosophical and ethical reflection of morality in Slovakia in the given era The third part examines socio political and professional ethical aspects of the development and functioning of morality in Slovakia in the first half of the 20th century Reflections of morality in Slovakia in the Slovak literature of the first half of the 20th century are the object of interest in the fourth part of the monograph **Five Moral Pieces** Umberto Eco, 2014-09-30 Embracing the web of multi culturalism that has become a fact of contemporary life from New York to New Delhi Eco argues that we are more connected to people of other traditions and customs than ever before making tolerance the ultimate value in today s world What good he asks in a talk delivered during the Gulf War does war do in a world where the flow of goods services and information is unstoppable and the enemy is always behind the lines What makes news today who decides how it will be

presented and how does the way it is disseminated contribute to the widespread disillusionment with politics in general In one of the most personal of the essays Eco recalls experiencing liberation from fascism in Italy as a boy and examines the various historical forms of fascism always with an eye toward such ugly manifestations today And finally in an intensely personal open letter to an Italian Cardinal Eco reflects on a question underlying all the reflections in the book what does it mean to be moral or ethical when one doesn t believe in God As thoughtful and subtle as they are pragmatic and relevant these essays present one of the world's most important thinkers at the height of his critical powers
