Petrucelli, Jonathan R. Peters, 2016-10-11 Dig to the root of public fraud with deep exploration of theory standards and norms Preventing Fraud and Mismanagement in Government identifies common themes in public fraud and corruption describes the forces that drive them and provides an objective standard of good practices with no political bent From Bridgegate to Iran Contra this book walks through the massive scandals that resulted from public mismanagement and fraud to illustrate how deeply entrenched entity specific norms can differ from actual best practices The discussion includes the theoretical underpinnings of public fraud and how intense corporate culture and limited exposure to outside practice standards can lead to routine deviation from normal behavior and moral standards You ll find a compendium of practices that illustrate actual norms allowing you to compare your own agency s culture and operations to standard practice and contrast the motivations for fraud in the public and private sectors Public agencies and governmental entities are generally driven by a pubic benefit or goal but are widely varied in the ability and desire to deliver value while retaining best practices This book explicitly explores the common patterns of agency practices and cultural norms and describes how they can easily cross over into illegal acts Understand why fraud exists in the public sector Discover how your agency s mindset diverges from the norm Review cases where agency practices diverged from best financial practices Learn good practices in an objective nonpolitical context The government public sector provides some of the most basic services that are critical to a functioning society Lacking a profit motive these agencies nonetheless show a

pattern of fraud and borderline behavior that could be mitigated with the adoption of standards and best practices Preventing Fraud and Mismanagement in Government shares a canon of knowledge related to public operations and fraud providing deep insight into the causes solutions and prevention Handbook of Research on Financial Management During Economic Downturn and Recovery Teixeira, Nuno Miguel, Lisboa, Inês, 2021-06-04 Times of crisis are unexpected and they bring diverse challenges and opportunities for companies financial markets and the economy On one hand more risk and uncertainties appear yet on the other hand it is an opportunity to reorganize and reinvent the company It is important for businesses to understand ways to deal with uncertainty and risk in times of economic downturn and what financial strategies and tools can be used to eliminate or reduce the potential negative effects. These effects can reach the company s financial performance capital structure as well as cause financial debt and the availability of cash flow to companies However different financial instruments can sustain the business and deal with the difficulties of payment when sales reduce and uncertainty increases thus research is essential in this critical area When economic downturn affects the financial markets the role of banks country dynamics the economy and many other facets of the business world financial management becomes the key for business recovery The Handbook of Research on Financial Management During Economic Downturn and Recovery shares relevant knowledge on challenges and opportunities caused by crises such as the pandemic and the effects on economic and financial arenas The chapters cover topics such as business models to understand how companies react to pandemic and crises situations as well as how they change their management and way of conducting business Other important topics include sustainable development international financial markets capital structure changes uncertainty and risk and governance and leadership This book is ideal for shareholders directors and managers economists researchers academics practitioners stakeholders researchers academicians and students interested in knowledge on topics about challenges in the way that companies financial markets financial institutions and governments respond to risk and uncertainty of Justice Without Illusions Louis E. Wolcher, 2016-06-17 The founding premise of this book is that the nimbus of prestige which once surrounded the idea of justice has now been dimmed to such a degree that it is no longer sufficient to secure the possibility of a good conscience for those who undertake in good faith to make the world a better place in the spheres of politics and law The many decent human beings who have noticed and experienced this diminishment of justice s prestige find themselves in a thoroughly disenchanted existential situation For them the attempt to do justice without the illusion of being grounded in something beyond the sheer facticity of their own performances is a distinctly ethical theme which cries out to be investigated in its own right Heeding the cry this book asks and attempts to answer the following fundamental ethical question is a life in the law even one spent in the pursuit of justice worth living and if so how can a disenchanted person come to bear the living of it without constantly having to engage in self deception If Nietzsche is right that living without illusions is impossible for human beings then the most important ethical implication of this essentially

anthropological fact goes far beyond the question of what illusions we ought to choose It must also include the question of whether we should succumb to that most seductive and pernicious of all illusions namely the belief that exercising great care and responsibility in choosing our illusions which we might then call our principles of justice excuses us ethically for what we do to others in their name The culmination of a 10 year legal philosophical project this book will appeal to graduate students scholars and curious non academic intellectuals interested in continental philosophy critical legal theory postmodern theology the philosophy of human rights and the study of individual ethics in the context of law HR Management Tools (Collection) Alison Davis, Jane Shannon, Wayne Cascio, John Boudreau, James C.
