Brandon C. Benziger, Adam W. Day, 2023-06-23

Employment in the field of biblical studies has changed significantly in recent years and the coronavirus pandemic has only exacerbated the resulting challenges The purpose of this anthology is to inform and inspire evangelical students and graduates of biblical studies programs about the wide variety of training related vocational paths they can pursue both conventional and unconventional The book does this by listing and categorizing twenty five relevant pathways sharing the stories and insights of insiders within each pathway and calling for further creativity in putting one's biblical training to work Each contributor shares 1 how they settled into their represented occupation 2 the ways in which they have used their biblical training in that occupation 3 the joys and trials of their work and 4 advice for those who would like to follow in their footsteps The volume stands in the tradition of several nuts and bolts like resources within the guild e g Nijay Gupta's Prepare Succeed Advance and Ben Witherington's Is There a Doctor in the House and it seeks to develop that tradition considerably *A Christian Spirituality and Psychotherapy* Richard H. York, 2009-06-01 This book describes a method of therapy based upon the Christian spirituality and psychotherapy perspective developed by Dr Richard York This clinical theology perspective is a phenomenological approach that integrates spiritual theological and psychological concepts and was developed in large part through York's own experience of being relieved of depression and anxiety through interweaving of psychotherapy prayer and meditation spiritual direction and the relationship with his Indwelling Spirit Because human beings are the products of relationships York critiques approaches to psychology premised upon the subject object epistemology of empirical science that study human behavior He suggests instead that a relational ontology research method offers an approach superior to that of standard psychotherapy and uses experience in relationship as the fundamental concept in this clinical theology Because people are prone to hurt themselves and others York also argues that standard approaches to psychology need to develop a psychology of sin and evil including some form of a Higher Power as essential parts of the spiritual aspect of psychotherapy York critiques Christian theologians for developing theology that seldom uses empirical data and that is irrelevant to the process of helping people heal and grow He criticizes those pastoral ministers who moralize with people instead of listening to them as well as those who preach more about sin and suffering than God's presence and saving grace through the forgiveness of sins While he acknowledges that most of his perspective is not new York does offer a unique contribution to the field of psychotherapy through the concept of the Indwelling Spirit He describes

how the Indwelling Spirit works in psychotherapy and the various techniques to access it He further argues that his experience as a gay psychologist is an essential aspect of his method because in being healed through his experience with his Indwelling Spirit he was able to define this experience for use in psychotherapy an insight used by very few straight therapists York challenges the notion of how a gay man who worships God regularly found healing through a relationship with Christ in the Holy Spirit of God and developed the concept of the Indwelling Spirit for psychotherapy could be considered objectively disordered and intrinsically evil by the Roman Catholic Magisterium Furthermore York describes a new principle of moral theology for sexual relationships based on love rather than procreation and suggests seven research hypotheses to study the phenomenon of the Indwelling Spirit and the love that is exhibited in both same sex and opposite sex relationships

Francis A. Martin, 2020-03-13 Acting on what started as a hunch Dr Francis Martin has cataloged well over 20 000 distinct approaches to counseling and psychotherapy that are advertised on the webpages of licensed practicing mental health providers No doubt some portion of them are harmful but the sheer volume of advertised practices and techniques often with names deceptively similar to actual evidence based practices should be cause for concern among all stakeholders in the helping professions from educators and researchers to policy makers and insurance companies and especially consumers Based on this significant original study and drawing from other research and supports *Therapy Thieves* describes a near universal crisis in the field and recommends ways to rescue mental health care from itself The crisis is caused by declining competence among counselors and psychotherapists who have failed to regulate themselves and who therefore deliver inadequate if not harmful services In presenting a simple yet powerful indictment of the field Dr Martin advocates for major reforms in several areas of mental health care including how prospective licensees are trained supervised and licensed a major reworking of professional ethics and the need to establish regulations for mental health care providers In short the book calls for major specific and urgently needed reforms
