The Untold Story of the Korean Film Industry Jimmyn Parc, Patrick A. Messerlin, 2021-09-10 This book analyses the Korean film industry emergence and development in a global business and economic perspective This is

one of the first books to compare the film policies and industries of the world's six largest film industries featuring Korea as the central character with the aim of defining the contours of what constitutes an effective film policy. It presents many cases showing that contrary to what is often believed, an economically sound policy is a good instrument for achieving desired cultural goals. It uses a set of analytical tools borrowed from the economic analysis of international trade policies to provide a rich harvest of new, rigorous and often unexpected results on the effectiveness of the existing film policies. The implications found in this book are relevant not only for Korea but for all other countries that wish to foster or enhance the competitiveness of their film industries. This book will be of interest to a wide spectrum of scholars interested in cultural studies, media and cultural specialists, political scientists, sociologists, historians, in addition to business analysts and economists specialized in cultural economics. As this book focuses on film policies and how to improve them, it will also appeal to policymakers, business figures, public relations officials and staff from international organizations working on the film industry.

Jin also sheds light on the operations and globalization strategies of Korean film industries alongside changing cultural policies in tandem with Hollywood's continuing influences in order to comprehend the power relations within cultural politics nationally and globally. This is the first book to offer a full overview of the nascent development of Korean cinema.

Korean Cinema Anthony C. Y. Leong, 2002 You don't have to look very far these days to see the influence that the film industry of Hong Kong has had on moviemaking around the world Hong Kong film stars such as Jackie Chan Chow Yun fat Jet Li and Michelle Yeoh have become household names headlining Hollywood blockbusters while directors such as John Woo Tsui Hark and Wong Kar wai are closing deals in Tinseltown and developing huge international followings Despite achieving such recognition abroad the luster on Hong Kong's homegrown film industry has faded quite a bit over the past decade However many Hong Kong cinema aficionados who passionately followed the rise of the Hong Kong New Wave during the Eighties and early Nineties only to become increasingly disenchanted since then are now looking to South Korea for Asia's boldest and most innovative films

Since 1998 South Korea's local film industry has undergone a remarkable transformation. A new generation of Korean moviemakers is revitalizing the industry with bold arthouse productions, big budget actioners, thought provoking dramas and subversive satires. In some circles South Korea is even being likened to the new Hong Kong with its film industry on the verge of exploding onto the world stage similar to how the Hong Kong New Wave catapulted the former British colony and its groundbreaking films into the international spotlight. Already some Korean films have found success in the North American market arthouse circuit while Korean directors are being courted by major Hollywood studios for lucrative U.S. remake rights.

Korean Cinema: The New Hong Kong is a guidebook for exploring this new and exciting treasure trove of cinema. It is the first book of its kind covering this emerging cinematic powerhouse in an easy to read and leisure focused fashion bringing all the sought after information on Korean cinema into one convenient package. Within the pages of *Korean Cinema: The New Hong Kong* you will find:

- A brief history of South Korea and its film industry which will help you understand the reasons behind the revolutionary changes in Korean cinema and what is influencing the country's directors.
- A look at the present state of Korea's filmmaking industry and how it resembles the dot com era with the only difference being that these companies are actually making money and lots of it.
- An examination of the characteristics, themes and dominant genres of the films in this newest Korean New Wave.
- In depth reviews and commentary of the top ten must see films of this latest Korean New Wave.
- An overview of the top genres of Korean cinema with reviews, commentary and notes on availability for the good, the bad and the ugly.
- A look at the stars of Korean cinema such as the Korean equivalents to Tom Cruise, Han Suk-kyu and Julia Roberts.
- Shim Eun-ha: How moviegoers can go about seeing Korean flicks with English subtitles too.

So sit back, relax and get ready to be introduced to Korean Cinema. *The New Hong Kong* Comments about the book: It's designed for people who are in the process of discovering Korean film and it's especially useful for people who are building DVD collections. Anthony approaches the industry as a fan of Hong Kong cinema who has gravitated towards Korean films in recent years. 266 pages in total so there's a lot of information. I'd recommend it. Darcy Paquet, Koreanfilm.org. Screen International correspondent and English language editor for the Korean Film Commission. Anthony Leong has taken the study of Asian Cinema to the next level. This book helps make sense of Korean cinema. It's an authoritative text yet thoroughly entertaining while being the definitive word of this exploding motion pic.
