Wolf Tracks Peter A. Szok, 2012 Popular art is a masculine and working class genre associated with Panama's black population. Its practitioners are self-taught commercial painters whose high-toned designs, vibrant portraits and landscapes appear in cantinas, barbershops and restaurants. The red devil buses are popular art's most visible manifestation. The old school buses are imported from the United States and provide public transportation in Colón and Panama City. Their owners hire the artists to attract customers with eye-catching depictions of singers and actors, brassy phrases and vivid representations of both local and exotic panoramas. The red devils boast powerful stereo systems and dominate the urban environment with their blasting reggae, screeching brakes, horns, sirens, whistles and roaring mufflers. *Wolf Tracks* analyzes the origins of these practices, tying them to rebellious Afro-American festival traditions and to the rumba craze of the mid-twentieth century. During World War II, thousands of U.S. soldiers were stationed in Panama, and elaborately decorated cabarets opened to cater to their presence. These venues often featured touring Afro-Cuban musicians. Painters such as Luis The Wolf Evans exploited such moments of modernization to challenge the elite and its older conception of Panama as a country with little connection to Africa. While the intellectual class fled from modernization and asserted a romantic and mestizo-European indigenous vision of the republic, popular artists enthusiastically embraced the new influences to project a powerful sense of blackness. *Wolf Tracks* includes biographies of dozens of painters as well as detailed discussions of mestizo nationalism, soccer, reggae and other markers of Afro-Panamanian identity.

Power, Powerlessness, and Globalization Opoku Agyeman, 2014-08-20 This book is about imperialism-driven globalization, its historic impact on Africa, Latin America and Asia, and over time, the varied responses of the national political units and regional entities in these continents to the challenges of building countervailing power and laying foundations for independent development. Where genuine recovery and empowerment have emerged, this has been the result not only of the pursuit of dignitist political and economic values that emphasize robust and sustained productivity geared toward uplifting the living standards and dignity of all the members of the national society, but also of the creation of indigenous institutions whose relations with the external world are defined by equality rather than dependence and subordination. Opoku Agyeman argues that dignification is the fundamentally necessary response to imperialism's inevitable afflictions of national racial humiliation. It is the most crucial ingredient in the complex of motivations that propel formerly weak nation states and regional communities to rise up and defend the honor of their people. As Mao Zedong told the world in 1949: "Ours will no longer be a nation subject to insult and humiliation. We have stood up." This study argues emphatically that it is a country's or region's developed or developing capabilities, not its historic and continuing victimization or habitual dependence on charitable aid and other altruistic interventions from the international community that determines its success in escaping the scourge of powerlessness and underdevelopment. It further maintains that a people who have been brought low through brutal dehumanizing imperialism cannot bypass the need for redemptive empowerment if they wish to regain

honor and a proper place in the world Finally it takes issue with Joseph Stiglitz Jeffrey Sachs and others like them whose moralistic critiques of the rapacity of imperialistic globalization carry the unfortunate implication that it is possible for a fair and just world social order to come out of incremental reforms of philanthropically motivated developed powerful countries in the structure and operations of global capitalism *American Presidential Statecraft* Ronald E. Powaski,2017-04-04 This book examines the presidency in twentieth century America and explores why some presidents succeed as makers of U S foreign policy while others fail sometimes tragically It explores each president s ability to apply his skills to a foreign policy issue in the face of opposition that may come from a variety of sources including the Congress the Pentagon the State Department the press and often their own in house advisers This volume in particular focuses on Theodore Roosevelt Woodrow Wilson Herbert Hoover Franklin D Roosevelt and Harry Truman

A Nation in Search of Its Nationhood Juan Manuel Pérez,2023-11-16 When the Liberal Party reached power in Panama in 1912 it started a period that lasted until 1941 A period in which Panamanians due to the special circumstances under which the country became independent the presence of the United States and of thousands of foreign workers in its territory began to doubt and asked themselves if they were truly independent The American presence impacted politics and a sense of inferiority developed because people believed that nothing could be accomplished without the blessings of the United States In the middle of chaotic political scene and self doubt the country retreated to its Hispanic past and began an effort to Hispanize in the face of so much foreign presence and influence and tried to show the world that Panama was an independent country with history and traditions and not an appendage of the United States Belisario Porras who became

president in 1912 emphasized the Hispanic past and built statues to Balboa and Cervantes. Acci n Comunal founded in 1923 promoted nationalism and criticized the corrupt nature of politics. It led a successful campaign against the 1926 Treaty and a coup in 1931. This new generation repudiated the generation that made the 1903 Treaty. Panama for Panamanians became one of the catch phrases for the Panamanian youth of the 1920 s and 1930 s which found in the brothers Harmodio and Arnulfo Arias the leading exponents. *The United States Discovers Panama* Michael J. LaRosa, Germán R. Mejía, 2003-10-14 Marking the centennial of Panama s separation from Colombia in 1903 this volume reprises U S images of the isthmus a century ago. The editors have collected a fascinating selection of articles from two of the most influential publications of the era Harper s Monthly Magazine and the Atlantic Monthly to illustrate the prejudices and expansionistic rhetoric of the time. An eclectic mix of adventure seekers naturalists scientists scholars and travellers all helped a reading public in the United States discover Panama and the tropics. Their writings show the long evolution of the U S debate on the question of Panama and how Americans came to believe control of the isthmus was vital to their economic and political wellbeing. Constituting critically important primary sources which are virtually unknown among students and scholars today the articles highlight the intersection of politics history technology and commercial interests in the region. By introducing and organizing these long forgotten essays in cohesive thematic sections this book will help readers think more critically and carefully about U S foreign policy and the ongoing legacy in U S Latin American relations. THE BUNAU-VARILLA BROTHERS AND THE PANAMA CANAL GABRIEL J. LOIZILLON, 2012-12-24 This book unravels the secrets of the Bunau Varilla brothers fortune made in the construction of the French Canal in Panama in 1886 1889. It also asks why Philippe Bunau Varilla is not recognised by Panamanians as the man who helped their republic to be born without him the Panama Canal would have been in Nicaragua. **A Heritage of Hypocrisy** Holliston Perni, 2005-10 In the dark says since the attack on the World Trade Center the question that many Americans have asked is Why? Why do they hate us as they do? Is it as our leaders would have us believe because they hate our freedom? To understand what others find objectionable in us we must take a long and brutally honest view of how we act versus what we like to say about ourselves. The facts as this book demonstrates are incontrovertible. Our history is an unbroken progression of atrocities betrayals of trust and abuses of the rule of law both to our global neighbors as well as our own citizens. Since the arrival of the first settlers we have cheated and swindled committed the most sweeping genocide in history 100 000 000 members of the indigenous populations attacked civilian populations with nuclear weapons promoted conflicts at home and abroad supported brutal right wing regimes bullied those weaker than us and performed gruesome experiments on the most defenseless of our own citizens poor southern blacks retarded teens and pregnant women. These sadly are the facts and are what others see when we say our proud slogans about peace and promoting democracy. But who among us is actually responsible for this ignominious state of affairs? As Perni argues all of these iniquities can be traced to three sources big business fundamentalist right wing Christians whom he

characterizes as our own domestic Taliban and a corrupt government that serves the corporations while manipulating the easily swayed voters

heard that Congress would soon vote on whether the canal should be built in Panama or Nicaragua All seemed lost when the House of Representatives overwhelmingly supported Nicaragua Bunau Varilla influenced the French Canal Company to lower the price for its canal concession and Donegan influenced President Roosevelt who previously favored Nicaragua to support the Panama site Congress had to make the final decision about the canal site Senator Morgans Committee on Interoceanic Canals supported the Nicaragua Canal Morgan and other senators argued that no can **Законы лидерства** Теодор Рузвельт, 2019-02-27 7 136
