Money, Financial Institutions and Macroeconomics Avi Cohen,Harald Hagemann,John Smithin,2012-12-06

Money Financial Institutions and Macroeconomics presents a comparative and international perspective on the current state of research in monetary theory and the application of monetary theory to important policy issues The main emphasis is on views stressing the importance of credit creation in the monetary process in a tradition which arguably encompasses

Wicksell the later Swedes and the Austrians through the later Hicks the circuit school and contemporary post Keynesians In addition however there are distinguished contributions from economists with a more mainstream approach to the issues The book is subdivided into four main parts Part I reviews the theory of a monetary and credit economy Part II explores alternative views on money and credit Part III deals with monetary policy issues in North America and Part IV discusses monetary policy issues in Europe Taken together the contributions to this volume certainly bear out Hick s famous adage about the much closer relationship between monetary theory and monetary history than is the case in other branches of economic thought

Financial Regulation in the European Union Rainer Kattel,Jan Kregel,Mario Tonveronachi,2015-10-08 This collection offers a comparative overview of how financial regulations have evolved in various European countries since the introduction of the single European market in 1986 It includes a number of country studies which provides a narrative of the domestic financial regulatory structure at the beginning of the period as well the means by which the EU Directives have been introduced into domestic legislation and the impact on the financial structure of the economy In particular studies highlight how the discretion allowed by the Directives has been used to meet the then existing domestic conditions and financial structure as well as how they have modified that structure Countries covered are France Germany Italy Spain Estonia Hungary and Slovenia The book also contains an overview of regulatory changes in the UK and Nordic countries and in post crisis USA This comparative approach raises questions about whether

past and more recent regulatory changes have in fact contributed to increase financial stability in the EU The comparative analysis provided in this book raises questions on whether the past and more recent changes are contributing to increase the financial stability and efficiency of individual banks and national financial systems The crisis has demonstrated the drawbacks of formulating the regulatory framework on standards borrowed from the best industry practices from the large developed countries originally designed exclusively for large global banks but now applied to all financial institutions

Regulation of Cancer Immune Checkpoints Jie Xu, 2020-03-17 This book systematically reviews the most important findings on cancer immune checkpoints sharing essential insights into this rapidly evolving yet largely unexplored research topic The past decade has seen major advances in cancer immune checkpoint therapy which has demonstrated impressive clinical benefits The family of checkpoints for mediating cancer immune evasion now includes CTLA 4 PD 1 PD L1 CD27 CD70 FGL 1 LAG 3 Siglec 15 VISTA PD 1L VSIG3 CD47 SIRPA APOE LILRB4 TIGIT and many others Despite these strides most patients do not show lasting remission and some cancers have been completely resistant to the therapy The potentially lethal adverse effects of checkpoint blockade represent another major challenge the mechanisms of which remain poorly understood Compared to the cancer signaling pathways such as p53 and Ras mechanistic studies on immune checkpoint pathways are still in their infancy To improve the responses to checkpoint blockade therapy and limit the adverse effects it is essential to understand the molecular regulation of checkpoint molecules in both malignant and healthy cells tissues This book begins with an introduction to immune checkpoint therapy and its challenges and subsequently describes the regulation of checkpoints at different levels In closing it discusses recent therapeutic developments based on mechanistic findings and outlines goals for future translational studies The book offers a valuable resource for researchers in the cancer immunotherapy field helping to form a roadmap for checkpoint regulation and develop safer and more effective immunotherapies
