It gives practical information illustrated with over 300 photos about the elements of care that are needed to improve care in a children's home or orphanage. The second part of the book gives information about child development and basic child psychology, including advice on effective use of rules and discipline. The third part of the book gives advice on how to effectively set up and run a children's home. Including a look at different kinds of set-ups, how to deal with staff, essential elements of good management, dealing with day-to-day issues, and ethical aspects to running a children's home. The aim of the manual is to improve the survival rate and quality of life of children in childcare institutions all over the world.

***HIV and Breastfeeding*** Pamela Morrison, 2022-02-24 In the early 1980s it was discovered that HIV, the virus that causes AIDS, could be passed through a mother's milk to her baby. Almost overnight in the industrialised countries, and later in the African countries most ravaged by HIV, breastfeeding became an endangered practice. But in the rush to reduce transmission of HIV, everything we already knew about breastfeeding's life-saving effects was overlooked, with devastating consequences for mothers and babies. In *HIV and Breastfeeding*, the untold story, former IBCLC Pamela Morrison, an acknowledged authority on HIV and breastfeeding, reveals how women in the world's most poverty-stricken areas were persuaded to abandon breastfeeding as part of a short-sighted and deadly policy that led to a humanitarian disaster. The dilemma that breastfeeding, an act of nurturing which confers food, comfort, and love, could be at once life-saving yet lethal, has been called the ultimate paradox. This critical account reveals how vital breastfeeding is, even in the most difficult of circumstances, and examines the lessons that can be learned from the mistakes of the past, which is particularly relevant as we deal with the consequences for mothers and babies of another global pandemic, Covid-19. With detailed information for HIV-positive mothers and their caregivers, and success stories from mothers themselves, this book is essential reading for anyone involved in protecting and supporting breastfeeding, or with a need for evidence-based information about breastfeeding and HIV.
