*Practical Prescribing for Medical Students* Helen Bradbury, Barry Strickland Hodge, 2013-11-08 Learning to prescribe is an essential part of medical training Due to various high profile serious prescribing errors the GMC have introduced stricter prescribing standards which medical

students must meet in order to graduate This book helps medical students learn the essentials of safe prescribing practice and is aimed directly at their needs It covers all the aspects of prescribing required by the GMC including principles of prescribing law and ethics professional responsibilities patient communication at risk groups avoiding common errors and what to do when things go wrong Key features Directly linked to the prescribing competencies in the GMC s Tomorrow s Doctors and Good Practice in Prescribing Medicines Real life prescribing case studies and scenarios relate the principles to actual practice and placement situations Activities throughout each chapter for testing prescribing knowledge and skills Test questions for the new Prescribing Skills Assessment to help students prepare and be confident that they can pass

*Patient-centred Diagnosis* Nicholas Summerton,2007 Offering a rational and evidence based approach to the diagnostic process this title returns the patient to the centre of diagnostic input and stresses interaction between doctor and patient

*National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1988      The Simulated Patient Handbook Fiona Dudley,2018-12-14 A simulated patient is an individual who by pretending to be a patient in a consultation offers health professionals an opportunity to learn explore and develop their expertise Simulated patients are also highly effective when used as an aid for consultation skills assessment In recent years the rapid rise of simulated patients in healthcare training has led to many more people working as and with simulated patients There is now a growing need for guidance on its benefits and also its potential complications The Simulated Patient Handbook is full of practical hands on advice and procedures for simulated patients covering all aspects of their work It includes comprehensive guidelines on the essential skills of characterisation and the giving of feedback This is the only manual currently available for simulated patients to learn best practice The wide ranging accessible reference also offers concise realistic advice to facilitators about setting up running and participating in sessions using simulated patients using this extraordinary educational resource to its greatest advantage

*Towards Prescribing Practice* John McKinnon,2007-04-09 The variety and number of non medical practitioners identified for prescribing activity is growing rapidly Across the country universities have validated prescribing programmes designed for generic health care practice with a distance learning component Towards Prescribing Practice offers readers a comprehensive guide to the principles and practice of prescribing The subject matter relates to the government content standards for study programmes and takes its cue from recent research in prescribing and patient care in practice This book embraces the perennial core principles of prescribing practice management and leadership Content is organised to facilitate progressive learning with space allocated in each chapter to practice application through discussion and exercises The early inclusion of a section on patient centred planning and concordance enables the reader to assimilate new knowledge within an individualised care approach The final three chapters are written from different clinical perspectives mental health palliative care and emergency care providing assistance to specific areas of prescribing practice

*The Principles and Practice of Primary Care and Family Medicine* John Fry,Nat Yuen,2018-05-08 Guidelines are powerful

instruments of assistance to clinicians capable of extending the clinical roles of nurses and pharmacists Purchasers and managers perceive them as technological tools guaranteeing treatment quality Guidelines also offer mechanisms by which doctors and other health care professionals can be made more accountable to their patients But how can clinicians tell whether a guideline has authority and whether or not it should be followed Does the law protect doctors who comply with guidelines Are guideline developers liable for faulty advice This timely book provides a comprehensive and accessible analysis of the many medical and legal issues arising from the current explosion of clinical guidelines Featuring clear summaries of relevant UK US and Commonwealth case law it is vital reading for all doctors health care workers managers purchasers patients and lawyers *Contemporary Issues in the Sociology of Death, Dying and Disposal* Peter C.

Jupp,2016-07-27 This book utilises a dynamic analysis of mortality to acknowledge shifts of emphasis in cultural and religious traditions A central concern is the diversity of representations of death to be found within the varying cultural religious medical and legal systems of contemporary western societies Since the construction of death mores has social implications a major element of the book is an examination of the way in which groups and individuals employ specific representations of mortality in order to generate meaning and purpose for life and death *Oxford Textbook of Primary Medical Care* Roger

Jones (Prof.),2005 Remote Medicine: A Textbook For Trainee And Established Remote Healthcare Practitioners John Nelson Norman,Malcolm Valentine,2020-07-13 This is the first major textbook on the emerging speciality of remote medicine The modern concept emerged in the 1970s when the medical directors of the main oil companies operating in the North Sea BP Shell and Mobil sought advice from the University sector since the morbidity and mortality levels of offshore workers had become unacceptable A system of healthcare was jointly developed and applied by the industrial doctors and the academic doctors of Aberdeen University which worked well and greatly improved the healthcare of the offshore personnel It was subsequently validated by duplication for the very different scientific population of the British Antarctic Survey where it worked even better It was next introduced to the oilfields of the Middle East Qatar QGPC Offshore and Onshore Abu Dhabi ADMA and ADCO and Oman PDO where it worked equally well The Aberdeen Universities next collaborated with the UAE University in Abu Dhabi to evaluate and develop telemedicine mainly in the area of education and research and they established early transcontinental courses and conferences together with joint supervision and production of higher degrees between collaborating universities in different parts of the world The recently established International Remote Healthcare Association IRHCA backed by the University of Glasgow the UAE University in Abu Dhabi and the Siberian State Medical University has established an ongoing study to determine the education and skills required to produce a competent Remote Healthcare Practitioner The chapters in this book contain the knowledge base currently thought by the IRHCA to be necessary to produce a competent remote healthcare practitioners and thus to allow curricular development of the new courses necessary for the establishment of University qualifications and for the regulating authorities to design examinations

and establish appropriate registration Since this is a new speciality the continuing research of the IRHCA is necessary to act as an audit to ensure that the information in the book and the courses derived from it remain relevant and also to detect omissions as they are recognised

Counselling Skills for Doctors Sam Smith,1999-06-16 What are intrinsic counselling skills How can doctors deploy them to help optimize the outcomes of clinical transactions with their patients Can such skills be taught and learned This book is about the doctor patient relationship It is not about counselling per se but about certain counselling skills intrinsic to the medical consultation or clinical transaction Together with other clinical skills intrinsic counselling skills are needed to achieve clinical goals satisfactory to both patient and doctor and appropriate to the clinical transaction and to the wider systems of healthcare Clinical transactions can be intellectually emotionally and sometimes physically demanding Success depends on doctor and patient adequately fulfilling the obligations and responsibilities of their respective roles But evidence shows that success also depends on doctors and patients forming a personal relationship of a quality capable of sustaining the sometimes arduous and distressing clinical work Such a relationship depends on good communication adequate mutual trust and the ability of doctors to empathise sufficiently with patients and their predicaments Intrinsic counselling skills are those deployed in the essential task of harmonizing professional and interpersonal aspects of the clinical transaction This book is recommended reading for doctors and medical students post registration vocational trainees and medical educators within medical schools
