Kiel, 2012-03-29 Micah Kiel discusses the overly simplistic nomenclature Deuteronomistic given to Tobit's perspective on retribution and attempts to show by coordinating it with Sirach and parts of 1 Enoch how the book's view is much more complex than is normally asserted Kiel argues that the return of Tobit's sight is a catalyst that ushers in new theological insight specifically that the world does not run to the tightly mechanized scheme of act and consequence Kiel's close comparison between Tobit and selected contemporaneous literature provides context and support for such narrative observations Sirach and parts of 1 Enoch demonstrate how authors at the time of Tobit were expressing their views of retribution in the realm of creation theology The created order in Tobit is unruly and rises up in opposition to God's righteous characters By way of this quirky tale the author of Tobit suggests that God does not function strictly according to old formulae Instead a divine incursion into human reality is necessary for the reversal of suffering
