[Novelty in Metaphors](#) Ramona Ileana Pistol, 2025-11-03 This book offers a groundbreaking semiotic exploration of metaphor as a fundamental cognitive process shaping how individuals experience and understand the world Moving beyond traditional frameworks it examines metaphor as a mode of creative discovery where meaning emerges through the interplay of perception emotion and imagination Drawing on Peirce's semiotics phenomenology and neuroscience the book demonstrates how metaphorical thinking enables navigation of ambiguity and creates new perspectives across domains from art and literature to science and everyday reasoning By integrating embodied cognition with aesthetic experience it illuminates how metaphors operate at the intersection of logical reasoning and emotional response revealing them as instruments of inquiry that transform engagement with reality The volume will be essential reading for scholars across disciplines seeking to understand the creative foundations of human cognition and meaning making

the formal structure of a text With a solid cognitive grounding Harding s approach emphasizes the relationship between figurative forms and narrative effects Harding demonstrates the literary functions of previously neglected figures of speech and the potential for a unified approach to a topic that crosses cognitive disciplines Her work has implications for the rhetorical approach to figures of speech for cognitive disciplines and for the studies of literature rhetoric and narrative
