**Black Terror White Soldiers** David Livingstone,2013-06-16 Far too ignorant of the histories of the rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man's Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history

Emon, 2010-04-08 This book offers the first sustained jurisprudential inquiry into Islamic natural law theory It introduces readers to competing theories of Islamic natural law theory based on close readings of Islamic legal sources from as early as the 9th and 10th centuries CE In popular debates about Islamic law modern Muslims perpetuate an image of Islamic law as legislated by God to whom the devout are bound to obey Reason alone cannot obligate obedience at most it can confirm or corroborate what is established by source texts endowed with divine authority This book shows however that premodern Sunni Muslim jurists were not so resolute Instead they asked whether and how reason alone can be the basis for asserting the good and the bad thereby justifying obligations and prohibitions under Shari'a They theorized about the authority of reason amidst competing theologies of God For premodern Sunni Muslim jurists nature became the link between the divine will and human reason Nature is the product of God's purposeful creation for the benefit of humanity Since nature is created by God and thereby reflects His goodness nature is fused with both fact and value Consequently as a divinely created good nature can be investigated to reach both empirical and normative conclusions about the good and bad They disagreed however whether nature's goodness is contingent upon a theology of God's justice or God's potentially contingent grace upon humanity thus contributing to different theories of natural law By recasting the Islamic legal tradition in terms of legal philosophy the book sheds substantial light on an uncharted tradition of natural law theory and offers critical insights into contemporary global debates about Islamic law and reform *The Rise of Critical Islam* Youcef L. Soufi, 2023 In a richly narrated historical study Youcef Soufi excavates an Islamic legal culture of critique from the 10th to 13th centuries Focusing on the practice of *mun ara* disputation Soufi explores how and why oral debates became a pervasive

and revered part of the intellectual legal landscape of Iraq and Persia Using the life and career of celebrated Iraqi jurist Ab Is q al Sh r z he traces the formalization of debate gatherings at the dawn of the classical legal schools al madh hib in the early 10th century and analyzes the wider institutional social and discursive conditions that made debate an important feature of any jurist s practice Pushing back against claims that classical Muslim jurists sought to weed out differences of opinion The Rise of Critical Islam presents a community committed to the openness fluidity and continued exploration of the law Challenging the view of debate gatherings simply as mechanisms of doctrinal resolution before codification the study reveals a classical culture where critical debates were part of a continual and personal quest to discover God s law In uncovering this classical legal culture Soufi invites readers to question claims about the promise of secular critique in disciplining religious passions and forging human solidarity

*Speaking in God's Name* Khaled Abou El Fadl, 2014-10-01 Drawing on both religious and secular sources this challenging book argues that divinely ordained law is frequently misinterpreted by Muslim authorities at the expense of certain groups including women. Khaled Abou El Fadl cites a series of injustices in Islamic society and ultimately proposes a return to the original ethics at the heart of the Muslim legal system.

Legal Authority in Premodern Islam Fachrizal A. Halim, 2014-11-20 Offering a detailed analysis of the structure of authority in Islamic law this book focuses on the figure of Yahyā b Sharaf al Nawaw who is regarded as the chief contributor to the legal tradition known as the Shāfi' madhhab in traditional Muslim sources named after Muhammad b Idrīs al Shāfi' d. 204-820 the supposed founder of the school of law. Al Nawaw's legal authority is situated in a context where Muslims demanded to stabilize legal disposition that is consistent with the authority of the madhhab since in premodern Islamic society the ruling powers did not produce or promulgate law as was the case in other monarchic civilizations. Al Nawaw's place in the long term formation of the madhhab is significant for many reasons but for one in particular his effort in reconciling the two major interpretive communities among the Shāfi'ites i.e. the *tarqas* of the Iraqians and Khurasanians. This book revisits the history of the Shāfi' school in the pre-Nawawic era and explores its later development in the post-Nawawic period. Presenting a comprehensive picture of the structure of authority in Islamic law specifically within the Shāfi'ite legal tradition this book is an essential resource for students and scholars of Islamic Studies History and Law.

*The Grey Falcon: The Life and Teaching of Shaykh 'Abd al-Qādir al-Jīlānī* Hamza Malik, 2018-10-02 In *The Grey Falcon* Hamza Malik offers an account of the life and teaching of the twelfth century scholar and Sufi of Baghdad and eponym of the Qadiri order. Shaykh Abd al Qadir al Jilani 1077-1166. The question of whether Jilani was a Sufi or simply a scholar appropriated by later Sufis as has been sometimes suggested is tackled through an analysis of his three most popular works: the *Ghunya li libar qal aqq*, the *Fut al Ghayb* and the *Fat al Rabb*. n Malik identifies and presents Jilani's Sufi thought and theological stance and furthermore attempts to paint a picture of the character and personality of Jilani as might be ascertained solely from the works analysed.
